ORDER DIRECTING FILING

This order directs the Staff of the Missouri Public Service Commission to file a pleading informing the Commission when Staff expects to file its recommendation.

On March 30, 2001, Union Electric Company, d/b/a AmerenUE, filed its application requesting approval to change the single-phase meter testing standard under which AmerenUE currently performs its single-phase meter testing. AmerenUE requests the Commission's approval to change from the MIL Standards,¹ currently used by AmerenUE as a basis for its testing procedure, to the ANSI Standards.² AmerenUE states that the ANSI Standards are essentially a modernization of the MIL Standards.

The Commission would be aided in its consideration of this application by Staff's recommendation. Therefore, the Commission shall direct Staff to file a pleading informing the Commission when Staff expects to file its recommendation.

¹ "MIL Standards" are the published standards of the United States Military establishments and other governmental agencies.

² "ANSI Standards" are American National Standard Institute Sampling Procedures and Tables for Inspection by Attributes and by Variables.

IT IS THEREFORE ORDERED:

1. That Staff of the Missouri Public Service Commission shall file a pleading informing the Commission when Staff expects to file its recommendation, regarding this application no later than August 6, 2001, 2001.
2. That this order shall become effective on August 6, 2001.

BY THE COMMISSION
