)

ORDER OF DISMISSAL

On April 4, 1990, the Commission received a petition signed by residents of the Jamesport exchange of Grand River Mutual Telephone Corporation (Grand River) requesting extraexchange calling at less than toll rates from the Jamesport exchange to the Chillicothe exchange served by Southwestern Bell Telephone Company.

By order issued April 18, 1990, the Commission directed Grand River to perform a calling usage study covering one billing cycle in order to ascertain whether a sufficient community of interest exists between these exchanges to justify providing them with community optional service (COS).

On August 14, 1990, Grand River filed the results of the calling usage study performed in said exchanges. The results of said study indicate that a community of interest does not exist between these exchanges.

By its Report And Order issued in Case No. TO-87-131, the Commission found that a community of interest would be demonstrated if a calling usage study showed that six calls per access line per month are made on the average from the petitioning exchange to the requested exchange and two-thirds of the customers in the petitioning exchange make two or more calls per month to the requested exchange. *In re the investigation of experimental extended measured service (EMS), Case No. TO-87-131 (December 29, 1989, clarified January 23, 1990).*

The results of the calling usage study performed herein indicate that 3.7 calls per access line per month were made on the average from the petitioning exchange to the requested exchange and 41.40 percent of the customers in the petitioning exchange made at least two calls per month to the requested exchange. Therefore, the Commission's criteria have not been met.

In view of the foregoing, the Commission determines that the above-referenced case should be dismissed.

IT IS THEREFORE ORDERED:

1. That the above-referenced case be dismissed hereby.
2. That this order shall become effective on the 14th day of November, 1990.
