Dear Secretary Carnahan:

Re: Proposed Rule 4 CSR 240-123.065

CERTIFICATION OF ADMINISTRATIVE RULE

I do hereby certify that the attached is an accurate and complete copy of the proposed rule lawfully submitted by the Missouri Public Service Commission for filing on this 15th day of October, 2007.

Statutory Authority: Sections 386.210.2 and 386.250 RSMo 2000.

Executive Order 93-13 requires state agencies to undertake a "takings analysis" of each proposed rulemaking in light of the United States Supreme court decision in *Lucas v. South Carolina Coastal Council*, 112 S. Ct. 2886 (1992). Pursuant to that order, I have undertaken a "takings analysis" of the above-referenced proposed rulemaking. In *Lucas*, the Court held that state regulation depriving an owner of real property of all economically beneficial use of that property constitutes a "taking" under the Fifth and Fourteenth Amendments of the U.S. Constitution, for which the property owner must be compensated. Adopting the proposed rulemaking does not implicate the takings clause of the U.S. Constitution, because the proposed rulemaking does not involve the taking of real property.

Section 536.300, RSMo Supp. 2006, requires state agencies to "determine whether the proposed rule amendments affect small businesses and, if so, the availability and practicability of less-restrictive alternatives that could be implemented to achieve the same results of the proposed rulemaking." Executive Order 03-15, which similarly addresses the impacts of rulemakings on small businesses, defines a small business to be "a for-profit enterprise consisting of fewer than one hundred full- or part-time employees" and elaborates

that a proposed rule "affects" a small business if it "impose[s] any potential or actual requirement" that "will cause direct and significant economic burden upon a small business, or that is directly related to the formation, operation, or expansion of a small business." Section 536.300.3, RSMo Supp. 2006, in part, provides: "If the state agency determines that its proposed rule does not affect small business, the state agency shall so certify this finding in the transmittal letter to the secretary of state, stating that it has determined that such proposed rule will not have an economic impact on small business . . ."

Proposed amendments to 4 CSR 240-123.065 do not impose any requirement that "will cause direct and significant economic burden upon a small business, or that is directly related to the formation, operation, or expansion of a small business." The Commission certifies that it has determined that the proposed rule amendment will not have an economic impact on small businesses.

Name of Person Approving Statement:

Please describe the methods your agency considered or used to reduce the impact on small businesses (examples: consolidation, simplification, differing compliance, differing reporting requirements, less stringent deadlines, performance rather than design standards, exemption, or any other mitigating technique).

Reduced the number of copies of the Quality Control Manuals that need to be submitted with each plan approval, extended the implementation date of the requirements to build modular structures from immediately after the amendments are adopted to six months after the amendments are adopted through the Secretary of state. Adopting the new codes ensures more timely approval of modular structures by local building code administrators.

The majority of the impact of any cost with the implementation of the Modular unit amendments is incurred by the manufacturers and has no measurable impact on the small businesses local retailer dealers who sell factory built modular structures.

Please explain how your agency has involved small businesses in the development of the proposed rule.

The agency regularly conducts informational meetings throughout the state to obtain feedback for the local retailers who sell and install modular structures. The agency also works closely with local governments to ensure the factory built structures are built to codes that are approved by local governmental agencies.

Please list the probable monetary costs and benefits to your agency and any other agencies affected. Please include the estimated total amount your agency expects to collect from additionally imposed fees and how the moneys will be used.

Monetary costs will be less than \$500 annually for revisions to existing forms and other notifications to the Industry. Those notifications can be included in existing notifications. No other additional imposed fees are required.

Please describe small businesses that will be required to comply with the proposed rule and how they may be adversely affected.

The impact is limited to the factories who build the Modular structures. By building the structures to the updated codes, it should assist small businesses with more timely approval and installation of the structures in local communities.

Please list direct and indirect costs (in dollars amounts) associated with compliance.

Only one manufacturer listed costs exceeding \$500 annually and that cost was \$525 annually for the amendments to rule 4 CSR 240-123.040. All other respondents listed no direct or indirect costs with the implementation of the amendments.

Please list types of business that will be directly affected by, bear the cost of, or directly benefit from the proposed rule.

Manufactured Housing Manufacturers both residential and commercial manufacturers will bear the initial costs of building these structures to the updated building codes. However, as most of the manufacturers who responded to the cost requests stated, they were already using the updated codes, therefore no additional costs will be incurred. Additionally, building residential and commercial structures to updated building codes is a cyclical cost of doing business in the building construction Industry. Local Retail Dealers and the contractors who install/set-up these units will benefit from the proposed amendments. Consumers who purchase these units for residential and commercial purposes, including schools who use modular unit class rooms will have units that are safer as a direct result of the updated building codes. One of

the major considerations used in updating the building codes is to ensure the units also meet the most current safety standards.

Does the proposed rule include provisions that are more stringent than those mandated by comparable or related federal, state, or county standards?

Yes___ No__X_

If yes, please explain the reason for imposing a more stringent standard.

For further guidance in the completion of this statement, please see §536.300, RSMo.

NOTICE OF FINDING OF NECESSITY

Issue Date: October 12, 2007

On August 3, 2007, the Commission opened this docket to consider proposed amendments to the following rules: 4 CSR 240-123.010, 4 CSR 240-123.020, 4 CSR 240-123.030, 4 CSR 240-123.040, 4 CSR 240-123.050, 4 CSR 240-123.65, and 4 CSR 240-123.080. The subject rules pertain to Modular Unit rules. The amendments clarify current manufactured housing rules and update outdated versions of the rules.

The Commission finds that the subject rules are necessary and seeks comments from interested persons as to whether the rules are appropriate and properly designed and written.
