**ORDER DIRECTING NOTICE AND SETTING INTERVENTION
DEADLINE**

Issue Date: July 20, 2017

Effective Date: July 20, 2017

On July 19, 2017, Missouri-American Water Company (“Missouri-American” or “the Company”) filed an application with the Missouri Public Service Commission requesting a Certificate of Convenience and Necessity (“CCN”) to install, own, acquire, construct, operate, control, manage, and maintain a sewer system in the Homestead Estates subdivision in St. Louis County, Missouri.

The requested CCN would allow the company to provide wastewater treatment and collection system operation and maintenance for the approximately 39 customers currently receiving service by the Homestead Estates Homeowners Association (“Sellers”). Missouri-American states it does not anticipate the need for external financing in order to purchase Seller’s distribution system. Missouri-American also states that no franchises or permits from municipalities, counties, or other authorities will be required.

Missouri-American currently provides water service to Homestead Estates. If the application is granted, the Company proposes operating under the existing rates, rules

and regulations currently applied in Missouri-American's Cedar Hill service territory (Missouri-American's Tariff Sheet: MO. P.S.C. No. 26).

Missouri-American also requests a waiver of the notice requirement in Commission Rule 4 CSR 240-4.020(2), stating that it does not anticipate this proceeding will be "contested."

The Commission will direct notice be given and set a deadline for intervention requests. The Commission will also direct its Staff to file a status report on its review of Missouri-American's application.

1. The Commission's Data Center shall provide a copy of this order to the County Commission of St. Louis, Missouri, and the Missouri Department of Natural Resources.
