ORDER CLOSING DOCKET

On July 7, 1992, the Commission issued an Order in this case approving Union Electric Company's (UE) request for a certificate to construct, operate and maintain an electric transmission line in Phelps County, Missouri. The Commission also ordered UE to review, and modify as necessary, its internal policies and procedures for determining whether Commission authorization is necessary before beginning construction of facilities. UE was further ordered to file the results of this review within 90 days after the effective date of the Order.

On October 15, 1992, UE filed its report on the review of its procedures. On December 4, 1992, the Staff of the Commission (Staff) filed a motion to close this docket. Staff stated that UE's report was timely filed and that Staff believes the report to be a reasonable response to the Commission's concerns.

Upon review of UE's report and Staff's motion, the Commission finds that UE's review and report was reasonable and in compliance with the Commission's Order of July 7, 1992. Thus, the Commission determines that this docket should be closed.

IT IS THEREFORE ORDERED:
