

STATE OF MISSOURI
PUBLIC SERVICE COMMISSION

At a Session of the Public Service
Commission held at its office
in Jefferson City on the 10th
day of May, 1994.

In the matter of the request for)
community optional service from)
GTE Midwest Incorporated's Jenkins)
exchange to GTE Midwest)
Incorporated's Aurora exchange.)

CASE NO. TO-94-169

ORDER OF IMPLEMENTATION

On December 29, 1989, the Commission issued a Report and Order in Case No. TO-87-131 directing local exchange companies (LECs) in Missouri to offer community optional service (COS) in exchanges demonstrating a community of interest. The Commission determined that a community of interest is demonstrated when an average of six calls per access line per month are made from the petitioning exchange to the requested exchange and two-thirds of the customers in the petitioning exchange make two or more calls to the requested exchange per month.

On December 23, 1992, the Commission issued a Report and Order in Case No. TO-92-306 approving a statewide expanded calling scope plan. The plan, among other provisions, modified COS to a two-way service only and adjusted the rates for COS. The Commission also assigned primary toll carriers (PTCs) to implement COS in exchanges demonstrating a community of interest.

On November 29, 1993, the Commission received a petition signed by the residents of the Jenkins exchange requesting COS from the Jenkins exchange to the Aurora exchange. GTE Midwest Incorporated (GTE) is the LEC for both exchanges. GTE is also the assigned PTC for this route.

On January 4, 1994, the Commission directed GTE to perform a calling usage study to ascertain whether a sufficient community of interest exists between these exchanges. On January 10, 1994, GTE filed the results of the calling usage study performed in said exchanges. The results of said study are as follows:

Originating
Exchange
Jenkins

Terminating
Exchange
Aurora

Average
Calls Per
Access Line
8.68

Percent
Making
2+ Calls
67.59.

On March 25, 1994, the Staff of the Commission filed a memorandum recommending that COS be implemented between Jenkins and Aurora within 120 days.

Inasmuch as the petitioned route has met the calling criteria set forth by the Commission in Case No. TO-87-131, the Commission finds that a community of interest has been demonstrated. Thus, the Commission determines that COS should be implemented between the Jenkins exchange and the Aurora exchange on or before September 7, 1994.

IT IS THEREFORE ORDERED:

1. That GTE Midwest Incorporated shall implement community optional service between the Jenkins exchange and the Aurora exchange on or before September 7, 1994.

2. That this Order shall become effective on May 19, 1994.

BY THE COMMISSION
