ORDER GRANTING INTERVENTION

On September 22, 1988, St. John's Mercy Medical Center (Applicant) filed an application for a certificate to provide shared tenant services within the state of Missouri. On September 30, 1988, the Commission issued its Order And Notice, directing its Secretary to send notice of this application. No applications to intervene were received by the Commission on or before the intervention deadline of October 17, 1988. On February 7, 1989, Southwestern Bell Telephone Company (Bell) filed an application to intervene. It was a late filing. In its application, Bell stated that it did not become aware of the Applicant's filing until January 30, 1989. Bell further stated it had made a thorough search of its records and has not been able to determine whether it ever received a copy of the September 22, 1988 application or the Order And Notice dated September 30, 1988.

The Commission is of the opinion that Bell has interests which differ from those of the general public and its intervention would serve the public interest by representing a perspective not now present in these proceedings. Thus, the Commission has determined that Bell's application to intervene should be granted.

It is, therefore,

ORDERED: 1. That the application to intervene of Southwestern Bell Telephone Company is granted.

ORDERED: 2. That this order shall become effective on the date hereof.
