AFFIDAVIT OF Karla D Walker - Trustee ^{Successor}

STATE OF MISSOURI)

COUNTY OF ADAIR)

) ss.
)

Karla D Walker, Trustee, first being duly sworn, on his/her oath states:

1) I am the owner of property located at 22070 Foxroat Lane
Kirksville, MO known as the Paul A. Barker Living Trust
with parcel number(s) _____;

2) I engage in the following agricultural and/or ranching practices on this property:

The specific proposed area is being cash rented to the same person who has rented it for 40 (fourty) years for cattle ranching. Also, as requested by the original owner-trustee, this farm is being kept and maintained by 4 (four) successor trustees who all have plans for this farm as the original trustee-owner has just recently passed away. Beyond the cattle pasture is our only wooded area (timber) which is used for family hunting, for which we have a separate access. Proposed line heads north here and cuts through the middle of our only timber.

3) If approved, the transmission line route as currently proposed in this case will enter upon my property used for agricultural and/or ranching practices;

4) If approved, the transmission line will infringe upon my ability to engage in agricultural and/or ranching practices on my property described above by:

Cash renter for cattle rancher does not allow any person to have access (or) interact with his cattle. We have honored this agreement as part of the rental agreement. This income has allowed the Barker family to pay for expenses & upkeep of the family farm for 40 years. We will lose this yearly income which we have always received in advance, the rancher will withdraw his cattle and cease upkeep on his rental area- nearly one hundred acres.

Also, the Southeast corner of this property where proposed line is to cross is the area where family member has planned to build a house so that access is neither on highway to E nor in the middle of the rented cattle ground. In honor of our late father, Mr. Barker we would like to honor his wishes and keep this a tranquil farm for any family members who wish to come here, build, or transform into whatever necessary to sustain and have these 151.30 acres for our family only for many generations and free from regulation of any kind.

near Kirksville, Missouri.)

AFFIDAVIT OF Donald M. Westhoff, Kathleen Westhoff

STATE OF MISSOURI)
COUNTY OF Adair) ss.

_____, first being duly sworn, on his/her oath states:

1) I am the owner of property located at 27154 St Hwy KK
Kirksville, Mo.

with parcel number(s) 18-00005.00 Mo. SI-T61-R15;

2) I engage in the following agricultural and/or ranching practices on this property:

I raise corn, beans, hay and sweet corn.
I also lease my ground to deer hunters.

3) If approved, the transmission line route as currently proposed in this case will enter upon my property used for agricultural and/or ranching practices;

4) If approved, the transmission line will infringe upon my ability to engage in agricultural and/or ranching practices on my property described above by:

This line will cross my farm and split my farm in half at an angle and make much more difficult to farm. I raise sweet corn and I use electric fences to keep out animals. I also lease out my farm to deer hunters and this line will be very close to where they will set up their deer stand. Our children and grandchildren visit often and ride bike and four wheelers. They also love to fish and hunt and we have concerns about health hazards with this high voltage line. At the very least they should put these line on boundary line and not go through the middle of property

File No. EA-2015-0146

AFFIDAVIT OF Maria L. Evans

STATE OF MISSOURI

COUNTY OF Adair

ss.

Maria L. Evans

first being duly sworn, on his/her oath states:

1) I am the owner of property located at 12776 Suncrest Way, Greentop, MO 63546 with parcel number(s) _____;

2) I engage in the following agricultural and/or ranching practices on this property:

I have 35 acres of hay field which I have baled every year, and I pasture two donkeys, a mule, and a horse.

3) If approved, the transmission line route as currently proposed in this case will enter upon my property used for agricultural and/or ranching practices;

4) If approved, the transmission line will infringe upon my ability to engage in agricultural and/or ranching practices on my property described above by:

Although the last proposed line appears east of me, it appears I am still "on the list" of those who might be impacted by an easement. This would disrupt access to my property, create a need to establish different fences, and possibly affect my peace & quiet by unwanted traffic.

I worry that the transmission line will affect the well-being of the bees & butterflies I'm trying to attract with native plants.

I am a survivor of breast cancer and I am unclear what the long-term effects of a transmission line may mean to my health.
