ORDER APPROVING INTEREXCHANGE CERTIFICATE OF SERVICE AUTHORITY

On December 4, 1992, Lubbock Radio Paging Service, Inc. d/b/a Stenocall
(Applicant or Company) applied for a certificate of service authority under
Chapter 392, RSMo (Supp. 1992) to provide competitive intrastate interexchange
telecommunication services in the state of Missouri. Pursuant to Section
392.361, Applicant also requests that the Commission classify it as a competitive
telecommunications company and waive compliance with the statutes and Commission
regulations referenced below. The Commission issued its Order and Notice on
December 11, 1992, setting an intervention deadline of January 11, 1993. On June
11, 1993, the Commission issued an order directing Staff report not later than
July 6, 1993. There were no motions for hearing and no one requested
intervention. On July 12, 1993, the Staff of the Missouri Public Service
Commission (Staff) filed its Memorandum recommending approval of Company's
Application.

The requirement of a hearing has been fulfilled when all those having
a desire to be heard are offered such an opportunity. In this case, notice was
sent by the Commission. Interested persons or entities were directed to
intervene on or before January 11, 1993. Since no proper party or governmental
entity filed an application to intervene and there are no outstanding requests

for a hearing, the Commission determines that an oral hearing is not necessary and the Applicant may submit evidence in support of its application by verified statement. *State ex rel. Rex Deffenderfer Enterprises, Inc. v. Public Service Commission*, 776 S.W.2d 494, 496 (Mo. App. 1989).

The Commission finds that Applicant is a foreign corporation authorized to do business in the state of Missouri, with its principal office or place of business located at 1515 Avenue J, Lubbock, Texas 79401. The Commission further finds that Applicant has filed current financial information and a brief description of the type of service it proposes to provide, and has agreed to comply with all applicable rules and regulations of the Commission and any terms and conditions which the Commission may impose.

By its recommendation filed herein, Staff states that Applicant's proposed services are the same as those classified as competitive in Case No. TO-88-142, *In re the investigation for the purpose of determining the classification of the services provided by interexchange telecommunications companies within the State of Missouri*, Mo. P.S.C. (N.S.) 16 (September 1989). Staff therefore recommends that the Commission grant Applicant competitive status.

Based upon the verified statement of Applicant and Staff's recommendation, the Commission finds that all of the services Applicant proposes to offer are competitive and that Applicant should, therefore, be classified as a competitive company. The Commission further finds that the waiver of the following statutory and regulatory requirements is, pursuant to Section 392.361(5), reasonable and not detrimental to the public interest.

Pursuant to Section 392.470, the Commission determines that certain regulatory requirements should be imposed upon resellers authorized to provide telecommunication services in Missouri. Since the Applicant proposes to operate as a reseller of telecommunication services in this state, the Commission finds

that the following regulatory requirements should be imposed upon Applicant as reasonable and necessary conditions of certification:

- (1) Applicant is required to comply with reasonable requests by the Staff for financial and operating data to allow the Staff to monitor the intraLATA toll market pursuant to Section 386.320.3.
- (2) Applicant is required to file tariffs containing rules and regulations applicable to customers, a description of the services provided and a list of rates associated with the services pursuant to Section 392.220 and 4 CSR 240-30.010.
- (3) Applicant's tariff filing must also contain a preliminary section which states that Company is a competitive carrier and identifies the statutory and rule waivers herein granted.
- (4) Applicant is precluded from unjustly discriminating between and among its customers pursuant to Section 392.200 and Section 392.400.
- (5) Applicant is required by Sections 386.570, RSMo 1986, and 392.360, to comply with all applicable rules of the Commission except those which have specifically been waived by this Order.
- (6) Applicant is required to file a Missouri-specific annual report pursuant to Section 392.210 and Section 392.390.1.
- (7) Applicant is required, until the Commission orders otherwise, to submit to the Staff on a confidential basis, quarterly reports showing its percentage of interstate use and intrastate interLATA and intraLATA use pursuant to Section 392.390.3.
- (8) Pursuant to Section 392.390.3, Applicant is required to comply with the jurisdictional reporting requirements as set out in each local exchange company's access services tariff.

The Commission also finds that Applicant shall file appropriate tariffs within thirty (30) days of the effective date of this Order. The certificate to be granted herein will become effective only upon approval by the Commission of these tariffs.

The Commission finds that additional competition in the intrastate interexchange market is in the public interest and a certificate of service authority should be granted. The Commission also has found that all the services Applicant proposes to offer are competitive and that waiving the statutes and Commission rules set out below is reasonable and not detrimental to the public interest. Therefore, the Commission concludes that Applicant should be classified as a competitive company pursuant to Section 392.361.

IT IS THEREFORE ORDERED:

1. That Lubbock Radio Paging Service, Inc. d/b/a Stenocall be granted hereby a certificate of service authority to provide intrastate interexchange telecommunication services in Missouri. This certificate of service authority is subject to the conditions of certification set out herein and shall not become effective until the Commission approves Applicant's tariffs.
