ORDER APPROVING INTEREXCHANGE CERTIFICATE OF SERVICE AUTHORITY AND  
ORDER APPROVING TARIFF

On June 1, 1994, Western Union Communications, Inc. (Western Union or Applicant) applied to the Public Service Commission (Commission) for a certificate of service authority to provide intrastate interexchange telecommunications services within the state of Missouri and for classification as a competitive telecommunications company pursuant to Sections 392.361 and 392.440 RSMo Supp. 1993. Applicant also requested waiver of certain statutes and Commission rules as authorized by Section 392.420 RSMo Supp. 1993. The Commission issued its Notice and Schedule of Applicants on June 3, 1994, ordering parties wishing to intervene in the case to do so by June 20, 1994. There were no motions filed for permission to intervene or for hearing. On June 22, 1994, the Commission directed Western Union to file a proposed tariff, carrying a thirty-day effective date, reflecting the rates, rules, and regulations under which it proposes to offer services in Missouri.

Western Union filed its proposed tariff on July 6, 1994, with an effective date of August 7, 1994. In addition to the rates, rules, and regulations it intends to use for providing services the tariff also identifies Applicant as a competitive telecommunications provider, and indicates the statutory and regulatory requirements expected to be waived by the Commission. Western Union is proposing to offer prepaid telecommunications services through the use of debit cards. The debit cards will be sold at authorized outlets in

various denominations and will expire six months after the date of purchase. Applicant will provide its services through the resale of facilities provided by other carriers, and will not provide operator services.

On July 12, 1994, the Staff of the Commission (Staff) filed its Memorandum recommending approval of Company's application and proposed tariff. Staff stated that Applicant's proposed services are the same or equivalent to the services which were classified as competitive in Case No. TO-88-142, In re the investigation for the purpose of determining the classification of the services provided by interexchange telecommunications companies within the State of Missouri, 30 Mo. P.S.C. (N.S.) 16 (September 1989) and recommended that the Commission grant Applicant competitive status on that basis. Staff also recommended that Western Union be granted waiver of certain statutes and Commission rules which have been previously waived for other competitive telecommunications companies.

Staff stated that it had reviewed the proposed tariff and concluded that it clearly and comprehensively describes the terms and conditions of the services to be offered, and that those services are within the scope of the certificate of authority requested. Staff concluded that the proposed tariff is consistent with service offerings currently available from other interexchange carriers and approved by the Commission and is in compliance with Commission rules and regulations. Staff recommended that the tariff be approved for services on and after August 7, 1994.

The requirements of due process have been satisfied when interested persons have been given notice and an opportunity to be heard. Notice, in this case, was sent by the Commission on June 3, 1994, and interested parties were directed to intervene on or before June 20, 1994. Since no one has filed an application to intervene or request for hearing, the Commission determines that a hearing is not necessary and the Applicant may submit evidence in support of

its application by verified statement. State ex re. Rex Deffenderfer Enterprises, Inc. v. Public Service Commission, 776 S.W.2d 494, 496 (Mo.App. 1989).

After reviewing Applicant's verified statement and Staff's recommendation, the Commission finds that Applicant is a Delaware corporation authorized to do business in the state of Missouri, with its principal office or place of business at One Mack Centre Drive, Paramus, New Jersey 07652. The Commission finds that Applicant has filed current financial information and a brief description of the type of service it proposes to provide, and has agreed to comply with all applicable rules and regulations of the Commission, and with any terms and conditions which the Commission may lawfully impose.

The Commission finds that additional competition in the intrastate interexchange market is in the public interest and a certificate of service authority should be granted to Applicant. The Commission also finds that the services Applicant proposes to offer are competitive, and that waiving the statutes and Commission rules set out below is reasonable and not detrimental to the public interest. Therefore, the Commission concludes that Applicant should be classified as a competitive company pursuant to Section 392.361 RSMo Supp. 1993.

The Commission determines that, pursuant to Section 392.470 RSMo Supp. 1993, certain regulatory requirements should be imposed upon Applicant as a reseller of telecommunications services in Missouri. Applicant should be subject to the following regulatory requirements as reasonable and necessary conditions of certification:

- (1) Applicant is required to comply with reasonable requests by Staff for financial and operating data to allow Staff to monitor the intraLATA toll market pursuant to Section 386.320.3 RSMo (1986).

- (2) Applicant is required to file tariffs containing rules and regulations applicable to customers, a description of the services provided, and a list of rates associated with those services pursuant to Section 392.220 RSMo Supp. 1993, and 4 CSR 240-30.010.
- (3) Applicant's tariff filing must contain a preliminary section which states that Company is a competitive carrier and identifies the statutory and rule waivers granted it by the Commission.
- (4) Applicant is precluded from unjustly discriminating between and among its customers pursuant to Sections 392.200 and 392.400 RSMo Supp. 1993.
- (5) Applicant is required by Section 386.570 RSMo (1986), and Section 392.360 RSMo Supp. 1993, to comply with all applicable rules of the Commission except those which have been specifically waived by this order.
- (6) Applicant is required to file a Missouri-specific annual report pursuant to Sections 392.210 and 392.390.1 RSMo Supp. 1993.
- (7) Applicant is required to comply with jurisdictional reporting requirements as set out in each local exchange company's access services tariffs pursuant to Section 392.390.3 RSMo Supp. 1993.
- (8) A copy of the jurisdictional report submitted to local exchange companies shall be submitted to the staff on a confidential basis within ten (10) days of the date on which it is submitted to the local exchange company.

The Commission finds that Western Union's proposed tariff details the services, equipment, and pricing it proposes to offer, and that the proposed tariff is similar to those which have been approved for other Missouri

certificated interexchange carriers providing similar services. The Commission further finds that the proposed tariff filed on July 6, 1994, should be approved for service on and after August 7, 1994.

**IT IS THEREFORE ORDERED:**

1. That Western Union Communications, Inc. be granted a certificate of service authority to provide intrastate interexchange telecommunication services in the state of Missouri, subject to the conditions of certification set out above.
