ORDER APPROVING INTEREXCHANGE CERTIFICATE OF SERVICE AUTHORITY AND
ORDER APPROVING TARIFF

On January 3, 1995, National Telephone Communications, Inc. (National or Applicant) applied to the Public Service Commission (Commission) for a certificate of service authority to provide intrastate interexchange telecommunications services within the state of Missouri and for classification as a competitive telecommunications company pursuant to §§ 392.361 and 392.440 RSMo 1995. Applicant also requested waiver of certain statutes and Commission rules as authorized by § 392.420 RSMo 1995. The Commission issued its Notice and Schedule of Applicants on January 17, 1995, directing parties wishing to intervene in the case to do so by February 1, 1995. There were no motions filed for permission to intervene or for hearing. National was also directed to file a proposed tariff, carrying a thirty-day effective date, reflecting the rates, rules, and regulations under which it proposes to offer services in Missouri.

National filed its proposed tariff on February 3, 1995, with an effective date of March 6, 1995. In addition to the rates, rules, and regulations it intends to use for providing services, the tariff also identifies Applicant as a competitive telecommunications provider, and indicates the statutory and regulatory requirements expected to be waived

by the Commission. National is proposing to provide switched interexchange services, including "1+" long distance, WATS, 800 number, calling card, and debit card services.

On February 15, 1995, the Staff of the Commission (Staff) filed its Memorandum recommending approval of Company's application and proposed tariff. Staff stated that Applicant's proposed services are the same or equivalent to the services which were classified as competitive in Case No. TO-88-142, *In re the investigation for the purpose of determining the classification of the services provided by interexchange telecommunications companies within the State of Missouri*, 30 Mo. P.S.C. (N.S.) 16 (September 1989) and recommended that the Commission grant Applicant competitive status on that basis. Staff also recommended that National be granted waiver of certain statutes and Commission rules which have been waived for other competitive telecommunications companies. In addition, Staff recommended waiver of 4 CSR 240-33.040(5) (finance fee) which has been waived on particular request. Applicant also requested waiver of 4 CSR 240-33.060(5) (B-O) which has been repealed.

Staff stated that it had reviewed the proposed tariff and concluded that it clearly and comprehensively describes the terms and conditions of the services to be offered, and that those services are within the scope of the certificate of authority requested. Staff concluded that the proposed tariff is consistent with service offerings currently available from other interexchange carriers and approved by the Commission and is in compliance with Commission rules and regulations. Staff recommended that the tariff be approved for services on and after March 6, 1995.

Staff stated that National's proposed tariff contains a unique payment plan called Prompt Payment Discount (PPD) for qualifying customers of its Dial-1, 800 Call Me, 800 Plus, and travel card services. If the qualifying customer pays his or her bill within the time period specified for payment, the customer receives a ten percent discount on the next monthly bill. Staff concluded that the program is similar to a late payment charge in that a delinquent customer pays more than a customer who pays on time. Staff believes the PPD program is reasonable and nondiscriminatory.

The requirements of due process have been satisfied when interested persons have been given notice and an opportunity to be heard. Notice, in this case, was sent by the Commission on January 17, 1995, and interested parties were directed to intervene on or before February 1, 1995. Since no one has filed an application to intervene or request for hearing, the Commission determines that a hearing is not necessary and the Applicant may submit evidence in support of its application by verified statement. *State ex rel. Rex Deffenderfer Enterprises, Inc. v. Public Service Commission*, 776 S.W.2d 494, 496 (Mo.App. 1989).

After reviewing Applicant's verified statement and Staff's recommendation, the Commission finds that Applicant is a Nevada corporation authorized to do business in the state of Missouri, with its principal office or place of business at 2801 North Main Street, Irvine, California 92714. The Commission finds that Applicant has filed current financial information and a brief description of the type of service it proposes to provide, and has agreed to comply with all applicable rules and regulations of the Commission, and with any terms and conditions which the Commission may lawfully impose.

The Commission finds that additional competition in the intrastate interexchange market is in the public interest and a certificate of service authority should be granted to Applicant. The Commission also finds that the services Applicant proposes to offer are competitive, and that waiving the statutes and Commission rules set out below is reasonable and not detrimental to the public interest. Therefore, the Commission concludes that Applicant should be classified as a competitive company pursuant to § 392.361 RSMo 1995.

The Commission determines that, pursuant to § 392.470 RSMo 1995, certain regulatory requirements should be imposed upon Applicant as a reseller of telecommunications services in Missouri. Applicant should be subject to the following regulatory requirements as reasonable and necessary conditions of certification:

- (1) Applicant is required to comply with reasonable requests by Staff for financial and operating data to allow Staff to monitor the intraLATA toll market pursuant to § 386.320.3 RSMo (1986).
- (2) Applicant is required to file tariffs containing rules and regulations applicable to customers, a description of the services provided, and a list of rates associated with those services pursuant to § 392.220 RSMo 1995, and 4 CSR 240-30.010.
- (3) Applicant's tariff filing must contain a preliminary section which states that Company is a competitive carrier and identifies the statutory and rule waivers granted it by the Commission.
- (4) Applicant is precluded from unjustly discriminating between and among its customers pursuant to §§ 392.200 and 392.400 RSMo 1995.

- (5) Applicant is required by § 386.570 RSMo (1986), and § 392.360 RSMo 1995, to comply with all applicable rules of the Commission except those which have been specifically waived by this order.
- (6) Applicant is required to file a Missouri-specific annual report pursuant to §§ 392.210 and 392.390.1 RSMo 1995.
- (7) Applicant is required to comply with jurisdictional reporting requirements as set out in each local exchange company's access services tariffs pursuant to § 392.390.3 RSMo 1995.
- (8) A copy of the jurisdictional report submitted to local exchange companies shall be submitted to the staff on a confidential basis within ten (10) days of the date on which it is submitted to the local exchange company.

The Commission finds that National's proposed tariff details the services, equipment, and pricing it proposes to offer, and that the proposed tariff is similar to those which have been approved for other Missouri certificated interexchange carriers providing similar services. The Commission further finds that the proposed tariff filed on February 3, 1995, should be approved for service on and after March 6, 1995.

IT IS THEREFORE ORDERED:

1. That National Telephone Communications, Inc. be granted a certificate of service authority to provide intrastate interexchange telecommunication services in the state of Missouri, subject to the conditions of certification set out above.

2. That National Telephone Communications, Inc. be classified as a competitive telecommunications company for which the following statutes and regulatory rules shall be waived:
