Subject: RE: Renewable Energy Standard workshop information

Dear Mr. Taylor,

Thank you for the opportunity to be involved in such a monumental process. To my regret, I've not been able to make it to the most recent hearings due to distance and time requirement as I'm down in Joplin.

I'm certain many others will have a wealth of valuable comments so I will make only one because it far outweighs all others in my particular situation.

Missourians, in particular those in Empire service territory voted for Prop C which declares that all investor owned utilities must comply with the RPS, including the solar carve out and solar rebates. Doesn't this take precedence over statute 393.1050 which says the Empire doesn't have to do any solar, or provide any solar rebates, ever, regardless of what any future RPS says?

Respectfully Submitted,

Travis Creswell

Subject: Renewable Energy Standard workshop information

Thanks to everyone that attended yesterday's workshop.

As we discussed, I am attaching the marked-up copy of the draft rule (Rev 7) that was created at the workshop. Please provide me any additional comments or clarifications to the recorded comments by Wednesday, April 22.

I am also attaching a copy of the example spreadsheet that we discussed during the rule section 5 review. As stated at the workshop, the purpose for this spreadsheet was to provide an example of the utilization of section 5 (as written).

These documents and an attendance list from yesterday's workshop will be placed in our electronic filing system.
