AN EXTENSION OF THE ACTIVATION PERIOD) CASE NO. _____
FOR NUMBERING RESOURCES AND MOTION)
FOR EXPEDITED CONSIDERATION)**

**PETITION OF PAC-WEST TELECOMM, INC.
FOR AN EXTENSION OF THE ACTIVATION PERIOD
FOR NUMBERING RESOURCES AND MOTION FOR EXPEDITED TREATMENT**

COMES NOW Pac-West Telecomm, Inc. ("Pac-West"), by its undersigned attorneys, and hereby files this petition for an extension of the activation period for its numbering resources in Missouri, and motion for expedited treatment, pursuant to Rules 4 CSR 240-2.060 and 4 CSR 240.080(16). As detailed below, Pac-West requests an extension equal to the full 90-day period from the original activation date. This extension is necessary because of unanticipated delays in interconnecting with AT&T Missouri.

1. Please direct all pleadings, correspondence, and orders in this proceeding to the following:

4. NXX(s) and Block(s): the attached spreadsheet contains a list of codes and thousand blocks. All numbering resources are “initial.” An ‘A’ in the column headed “NPA NXX Block ID” indicates that Pac-West is the LERG assignee.

5. The original Part 4 Due Date appears in the spreadsheet column with the heading “Original Part 4 Due Date.”

6. Purpose for which number resources were assigned:

In accordance with the Central Office Code Assignment Guidelines (COCAG), initial NXXs (A codes) were requested to establish an initial Location Routing Number (LRN) for a new Pac-West switch and POIs that did not yet have an LRN for the LATA to be served. Initial NXX codes were also requested on behalf of the Pooling Administrator to replenish a rate center with no pooled blocks remaining. Initial Pooled blocks were requested in rate centers where thousands-block number pooling has been mandated and where Pac-West LRN has been established.

7. Reason for Extension Request:

As mentioned previously, Pac-West's implementation of local interconnection facilities and trunk groups with AT&T has been delayed due to unanticipated delays in interconnecting with AT&T Missouri.

8. The Part 4 due date requested by this Application appears in the spreadsheet column headed "Requested Part 4 Due Date." The requested due date for each code is 90 days from the original Part 4 Due Date.

10. All information required by 4 CSR 240-2.060(1)(B) and (C) was filed by Pac-West in the Application which opened Case No. LK-2007-0189. Pursuant to 4 CSR 240-2.060(G), Pac-West requests that the Commission incorporate that information herein.

11. Pac-West has no pending action or final unsatisfied judgments or decisions against it from any state or federal agency or court which involve customer service or rates.

12. Pac-West has no overdue annual reports or assessment fees at this Commission.

13. Pac-West seeks expedited treatment of this Application because if the Commission fails to act within ten (10) days, Pac-West is in jeopardy of losing the telephone

numbering resources at issue in Missouri, which would greatly harm Pac-West's ability to compete and would seriously harm its customers in the state. Pac-West filed this pleading as soon as it became aware of the jeopardy of losing the numbering. Pac-West requests the Commission rule with ten (10) days of receiving this motion.

Wherefore, for the reasons stated above, Pac-West respectfully requests the Commission grant Pac-West a 90-day extension of the activation period and that the Commission rule on this Application within ten (10) days of filing.

Respectfully Submitted,

/s/ Mark P. Johnson
