To whom it may concern,

Missouri Public Service Commission

We, the undersigned property owners in Evergreen Estates, City of Butler to release our electric service agreement to Osage Valley Electric Cooperative Association.

Currently established ordinances directly impede expansion of electrical services to multiple private properties in our housing area.

2. The name of Applicant's current electric service provider is: City of Butler
3. Applicant requests the Missouri Public Service Commission to order a change of the electric supplier to the address indicated above.
4. Applicant requested the Commission to order a change of electric supplier  
from City of Butler  
(Current)  
to Osage Valley Electric Cooperative  
(Requested)

5. Applicant requests the Missouri Public Service Commission to order a change of electric provider for the following reasons.\*

The aforementioned properties are not found within the City of Butler city limits, but are currently provided power by the City of Butler. Currently, established ordinances directly impede expansion of electrical services to multiple private properties in our housing area, preventing advancement of home constructions and devaluation of property in Evergreen Estates. It is our understanding that some of the currently provided power services to our properties are not provided legally. These properties were constructed after 1991. It is our understanding it is Osage Valleys' territory and therefore right to provide power to our geographical area. It is our understanding there is no current territorial agreement. It is our understanding the city has not found ownership paperwork for the electric lines in our community.

6. Applicant has taken the following steps in an attempt to work out electric service problems with the electric service provider: The service issue was discovered approximately 6-7 months ago when property owners were refused new electrical services to newly purchased property. Property owners attempted to remedy the situation once the issue was discovered. This issue has been presented during several City Council open and closed sessions, but minimal information has been provided to property owners upon inquiry to the City of Butler. Conflicting reports have been made regarding progress towards a territorial agreement. This is directly delaying building structures requiring electricity on these properties.

WHEREFORE, Applicant requests the Missouri Public Service Commission to issue an Order which changes the current electric service provider.

Direct Contacts for this application will be:

\*If reason for change is poor service, outages, low voltage, etc., applicant should submit a record of service problems covering at least 90 days, including dates and times of problems to the extent possible. Applicant should also attempt to determine reasons for any service problems. For instance, if electric service was out or you are experiencing blinking lights, you should contact the supplier of electric service to determine the problem, and include this information with the application. (If the reasons from the supplier was a storm, car hitting pole, trees in line, conductor fell down, or whatever the supplier states for the problem, this should be noted.)
