Josh, I'm told there isn't anything along these lines available. Starting with the second compliance filing, the company simply used the Staff-preferred template, that is, a solitary water (or sewer) tariff book with rates for service districts appearing on different sheets. The third filing was made to address some problems with the service area maps and other ministerial/form matters. I don't believe any of the rates or rate schedules were impacted.

Paul

Paul,

Would it be possible to get a red-line comparison of the 3 compliance tariff filings so the parties could see what was changed or not changed? Please let me know ASAP.

Thanks,

Josh
