File No. AX-2013-0091

NOTICE OF FINDING OF NECESSITY

Issue Date: August 29, 2012

The Commission is opening this file to amend the existing rules that set out the service and billing practices for the utilities serving residential customers. The Commission finds that amending the rules is necessary in that the existing rules are out of date due to changes in technology and finance and banking practices. In addition, certain rules are currently conflicting due to changes in other rules, regulations and utility tariffs. The Commission will seek comments from interested persons as to whether the amendments are appropriately designed and written.
