THE EMPIRE DISTRICT ELECTRIC COMPANY MISSOURI

Statement of Missouri Revenue Increase Request

The aggregate amount of annual revenue, from Missouri electric customers, which would result from the application of the proposed rates in this case, would be \$34,725,203 more than the annual revenue under existing rates. This would represent a 10.11% increase in the State of Missouri jurisdictional revenues.

THE EMPIRE DISTRICT ELECTRIC COMPANY FILES FOR NEW MISSOURI ELECTRIC RATES

JOPLIN, MO – October 1, 2007 – The Empire District Electric Company (NYSE:EDE) announced today that it has filed a request with the Missouri Public Service Commission (MPSC) for changes in rates for its Missouri electric customers. The Company is seeking an annual increase in revenues of approximately \$34.7 million or 10.11 percent. If approved, a residential customer using 1,000 kilowatt hours of electricity would experience a monthly increase of approximately \$9.75.

In making the announcement, Bill Gipson, President and CEO, stated, "We serve an area that continues to experience strong customer and demand growth. We are seeking rate relief largely to recover the capital additions necessary to ensure a safe, reliable, and adequate supply of energy for this growing region."

Totaling more than \$135 million, those additions include the new 150-megawatt generating unit at the Riverton Power Plant, the construction of a selective catalytic reduction system at the Asbury Power Plant, and significant reconstruction work during the catastrophic ice storm in January.

With this case, Empire is also requesting to implement a fuel adjustment clause (FAC).

Gipson states, "Continued volatility in fuel and purchased energy costs have compelled us to seek implementation of a fuel adjustment clause. We believe employing an FAC achieves an equitable

balance, ensuring financial stability for the Company while providing more timely savings to customers in the event fuel and energy costs decrease."

After today's filing with the MPSC, an extensive audit of Empire's operations, a public hearing, and an evidentiary hearing will be held. The Company anticipates that any new rates approved would not become effective until the fall of 2008.

Based in Joplin, Missouri, The Empire District Electric Company (NYSE: EDE) is an investor-owned, regulated utility providing electricity, natural gas (through its wholly owned subsidiary The Empire District Gas Company), and water service, with approximately 215,000 customers in Missouri, Kansas, Oklahoma, and Arkansas. A subsidiary of the Company also provides fiber optic services.

###

Certain matters discussed in this press release are "forward-looking statements" intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. Such statements address future plans, objectives, expectations, and events or conditions concerning various matters. Actual results in each case could differ materially from those currently anticipated in such statements, by reason of the factors noted in our filings with the SEC, including the most recent Form 10-K and Form 10-Q.

The Empire District Electric Company

Summary Explanation of Why Rate Relief is Needed

Rate Relief is needed due to the following:

- To include new production plant in rate base.
- To recover the reconstruction cost and expenses related to the January 2007 ice storm.
- To recover the increased cost of fuel and energy.
- To propose the implementation of a Fuel Adjustment Clause ("FAC") to offset the risk of fuel cost increases.
- Various other operating cost changes, including vegetation management.
