Missouri Public
Service Commission

BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI

In the Matter of the Application of Union)
Electric Company for Permission and)
Authority to Construct, Operate, Own, and) Case No. EO-2002-351
Maintain a 345 Kilovolt Transmission Line)
in Maries, Osage, and Pulaski Counties,)
Missouri ("Callaway-Franks Line").)

AFFIDAVIT OF FRANCIS A. PLATT

Francis A. Platt, being first duly sworn, deposes and says that he (he/she) is the witness who sponsors the accompanying testimony entitled "Rebuttal Testimony of Francis A. Platt"; that said testimony was prepared by him (him/her) and/or under his (his/her) direction and supervision; that if inquiries were made as to the facts and conclusions in said testimony, he (he/she) would respond as therein set forth; and that the aforesaid testimony is true and correct to the best of his (his/her) knowledge.

Francis A. Platt

My Commission Expires July 18, 2003

**DIRECT TESTIMONY OF
FRANCIS A. PLATT**

1 Q. Please state your name and residence address.

2 A. Francis A. Platt, Route 2, Box 101 AC, Linn, Missouri 65051.

3 Q. Are you a property owner in one of the three counties through which Union Electric
4 Company is applying for permission and authority to construct, operate, own and maintain
5 a 345 kilovolt transmission line?

6 A. Yes, I am the owner of property which I am advised will be crossed by this new 345,000 volt
7 transmission in Osage County.

8 Q. What is the purpose of your testimony?

9 A. I am providing this testimony in opposition to the application to construct this transmission
10 line on the route requested by Ameren UE. The law requires that construction of this power
11 line must be shown by Ameren UE to be necessary and convenient for the public service.
12 Regardless of any necessity for a transmission line somewhere else, it is neither necessary
13 nor convenient to the public to build the transmission line as proposed. The line can be
14 constructed in other areas and its construction in the place and manner proposed will be
15 destructive of family farms, family farm values, and does irreparable harm to the history and
16 heritage of the local area and its communities.

17 Q. Are you a member of the Intervenor group known as Concerned Citizens for Family Farms
18 and Heritage?

19 A. Yes, I am a member of that group and offer my testimony in support of its statement of
20 purpose, which is attached to this testimony and incorporated.

1 Q. Have you as a property owner in the path of the proposed transmission line been contacted
2 by Ameren UE for purpose of discussing where the line would go through your property and
3 what alternatives, if any, might be available?

4 A. No. We were not contacted by Ameren UE.

5 Q. How long have you owned the property in question?

6 A. This property has been in the Platt name for 132 years.

7 Q. Could you describe the nature of the property and its past and current use?

8 A. We use it for pasture for our cattle. We have wood for fuel for our home. We use it for
9 logging and we have family homes on this property.

10 Q. Is the current use of the property income producing to you?

11 A. Yes. We use it for grazed land to raise cattle for our own use for food and for income.

12 Q. Is the proposed transmission line to run near or over any residence, structures, or
13 improvements to your property?

14 A. Yes, and close enough where we don't want to have to look at them when we go out of our
15 back door.

16 Q. Do you already have any power lines over your property?

17 A. Yes. We would have two different power companies' lines side by side. One is bad enough
18 to see standing in our pasture ground and in our views.

19 Q. Will the proposed power line, if built, affect the value of your land?

20 A. Yes. A power line of this size on my property will without question decrease the overall
21 value of the remaining property. The power line itself, the large easement taken on a strip
22 through that part of the property will impair present and future use of the entire parcel of

1 property I own. The option of selling the property to get rid of the problems caused by the
2 power line is unavailable. The power line will make the property virtually unsaleable,
3 requiring that I simply live with Ameren UE's solution to a problem that I do not feel I even
4 share with them. While I am unsure of the health affects of such a large power line so close
5 to my own daily activities, it is ingrained in the popular mentality that such power lines
6 constitute a health hazard, rendering unlikely any sale of my property at all. No one will buy
7 this property with this 345,000 volt electric line through it. Our visitors that we have had
8 over the years that we lived on this property always admired our view. If this line goes
9 through, the view will no longer be a beautiful view, it will look like giant power lines out
10 our back door.

11 Q. What other adverse impacts do you feel this line will create for yourself and others?

12 A. The attached statement of purpose for Concerned Citizens for Family Farms and Heritage
13 sums up the overall bad impact. I and my neighbors live where we do by choice. We forego
14 the luxuries of more urban living in exchange for the peace, quiet and more rustic lifestyle
15 of the family farm and the small local community. Every reason and purpose that my
16 neighbors and I own property here for is drastically impaired or practically destroyed by the
17 presence of this high voltage power line, and the constant commercial activity anticipated in
18 building and maintaining it in the future.

19 Q. Do you know of any alternatives to the Ameren UE proposal which might change your
20 opinion about this project?

21 A. The alternatives are all within the power of Ameren UE to implement, and I do believe an
22 alternative exists. I believe Ameren should restudy the route and balance the interests of the

1 community against their need to relieve overloading problems. There are other corridors
2 equally available to Ameren to build this line which would be better able to bear the burden
3 of the line's presence without destroying property values, life styles and family farms. My
4 neighbors and I have no alternatives, and construction of the line as proposed will change our
5 lives and circumstances forever. We will not be able to sell even though we may not wish
6 to stay. Given our lack of options and alternatives, and the numerous alternatives available
7 to Ameren UE to put this line almost anywhere it wants, it is my hope that the Public Service
8 Commission will require Ameren UE to balance their mere commercial need against our vital
9 need to preserve the family farm and our way of life.

10 Q. Have you had past experiences with power companies and their maintenance of their
11 easement and right-of-way, and do you have concerns about this aspect of the new power
12 line?

13 A. Yes. They leave stumps too high and leave the tree parts laying on the ground.

14 Q. Does this conclude your Rebuttal Testimony?

15 A. Yes.

**CONCERNED CITIZENS OF FAMILY
FARMS AND HERITAGE**

STATEMENT OF PURPOSE

Concerned Citizens of Family Farms and Heritage ("Concerned Citizens") is an unincorporated membership association of family farm owners, small property owners, small business owners and farm community residents formed to promote the interests of family farming, small town communities and rural life. Membership is open to all who share the desire to promote the interests of family farms and small communities in the rural areas of central Missouri, and those who wish to preserve the rural environment against the continuous encroachment of large commercial development and urban sprawl. Our primary concern is with preservation and protection of the family farm and its heritage in rural Missouri. Concerned Citizens oppose through all lawful means the encroachment on and destruction of family farms, which are the fundamental economic and cultural basis for the rural lifestyle. Concerned Citizens promotes all reasonable efforts to preserve and protect family farms and rural lifestyle, and vigorously opposes impairment or destruction of property which is used or useful for perpetuation of rural existence on family farms, or diversion of property from use as family farms.
