- Greater than or Equal to 768 kbps, Less than 1.5 mbps
- Greater than or Equal to 1.5 mbps, Less than 3 mbps
- Greater than or Equal to 3 mbps, Less than 6 mbps
- Greater than or Equal to 6 mbps, Less than 10 mbps
- Greater than or Equal to 10 mbps, Less than 25 mbps
- Greater than or Equal to 25 mbps, Less than 50 mbps
- Greater than or Equal to 50 mbps, Less than 100 mbps
- Greater than or Equal to 100 mbps, Less than 1 gbps
- Greater than 1 gbps
- Interstate Highway
- US Highway
- Missouri Highway
- Missouri State Route
- Place with population 1,000 - 4,999
- Place with population 5,000 - 20,000
- Place with population over 20,000
- County Boundaries

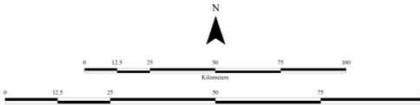

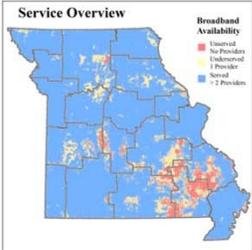

Broadband service data represent 101 providers and are accurate as of 30 June 2011. Three (3) satellite broadband providers are not included in mapping.

This product is intended for general reference, and mapped service areas do not guarantee broadband availability.

In some areas, Wired Broadband Provider data are shown with higher priority than Wireless Broadband Provider data of greater speeds. This is intentional and is done in order to take advantage of the increased level of spatial accuracy available from using Census Block and Road Segment data provided by Wired Broadband Providers.

This product is intended for general reference, and mapped service areas do not guarantee broadband availability.

In some areas, Wired Broadband Providers not capable of delivering speeds equal to or greater than 3 mbps may be shown with higher priority than Wireless Broadband Providers that are able to deliver speeds equal to or greater than 3 mbps. This is intentional and is done in order to take advantage of the increased level of spatial accuracy available from using Census Block and Road Segment data provided by Wired Broadband Providers.
