Subject: Storage Operational Flow Order (OFO) – System Wide

Notice Text

Per Section 10.2 of the General Terms and Conditions (“GT&C”) of its FERC approved tariff, Southern Star Central Gas Pipeline (“Southern Star”) is issuing a system wide Standard Operational Flow Order (“Standard OFO”), to be effective at 9:00 A.M. CST February 11, 2021. This notice is being issued to all storage customers under Rate Schedules TSS, STS, FSS, and FS1 to protect the integrity of the Southern Star’s storage facilities due to high withdrawal levels from Southern Star’s storage fields.

This OFO requires each shipper with an agreement or agreements under Rate Schedules TSS, STS, FSS, or FS1 to adjust its receipts and/or deliveries so as to maintain

1. Storage withdrawals at or below the applicable Maximum Daily Withdrawal Quantity (“MDWQ”) under each agreement; and
2. Storage inventories at or above 0% of its contractual Maximum Storage Quantity (“MSQ”) under each agreement.

Failure to specifically adhere to this OFO will result in penalties for all quantities withdrawn from storage on any day above the applicable MDWQ and/or for inventories below 0% of the MSQ. Penalties for failure to comply will be as set forth in GT&C Sections 10.3 and 10.4.

Customer specific information is available on CSI (<https://csi.southernstar.com>). Storage Operators can review their daily storage balances by running report CSI041 Storage Information found in the Reports Section of CSI under the Imbalance heading.

This OFO shall remain in effect through the February 16, 2021 gas day; however, Southern Star will monitor storage withdrawals and may, by additional notice, either adjust this Standard OFO to an Emergency OFO, extend it beyond such date or terminate it earlier as operational conditions warrant. Thank you in advance for your cooperation in this matter. If you have any questions regarding this notice, please contact one of the Customer Service Representatives listed below.
