Re: Docket No. AO-87-48

Dear Mr. Hubbs:

Enclosed for filing please find three copies of the response of St. Joseph Light & Power Company as directed by the order of the Missouri Public Service Commission issued in the referenced docket on November 3, 1986.

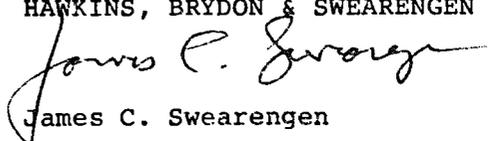

Please enter the appearance of the undersigned as counsel for St. Joseph Light & Power Company in this docket.

Thank you very much.

Very truly yours,

HAWKINS, BRYDON & SWEARENGEN P. C.

DEC 15 1986

PUBLIC SERVICE COMMISSION

BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI

In the matter of the investigation)
of the revenue effects upon Missouri) Case No. AO-87-48
utilities of the Tax Reform Act of)
1986.)

St. Joseph Light & Power Company (hereinafter referred to as the "Company") submits the following information in compliance with the Missouri Public Service Commission, Case No. AO-87-48.

The Company is engaged as a public utility in the furnishing of electric, natural gas and industrial steam service to the public in all or parts of 10 Northwest Missouri counties. Consistent with this Order, operating results for each utility service are provided as determined in a manner comparable to the Company's last general rate order.

The names and addresses of persons to whom correspondence or communications in regard to this filing are to be addressed are as follows:

FILED

DEC 15 1986

PUBLIC SERVICE COMMISSION

This filing follows the outline of the order, and workpapers are attached (Exhibits 1 through 4) to reflect the computation of revenue requirements.

I. Tax Law in Effect for 1986

The revenue requirements for the Company's 1985 Missouri jurisdictional electric, natural gas and industrial steam

operations calculated in accordance with 1986 tax laws are \$64,610,741, \$5,390,523 and \$4,365,921, respectively.

SJLP Exhibit No. 1, Schedules 1-6 provides supporting documentation utilized in computing these revenue requirements. Schedule 2 represents Company rate base at December 31, 1985. Year-end balances were adjusted to reflect allocations among utility services which were made in a manner comparable to the Company's last rate order. Additionally, deferred tax reserves were adjusted to reflect the effect of the revised tax laws.

SJLP Exhibit No. 1, Schedule 3, illustrates the Company's cost of capital at December 31, 1985. Existing balances and cost of monies at that date were utilized except for a redetermination of common equity based on the results of determining net income for 1985 utilizing 1986 tax laws.

SJLP Exhibit No. 1, Schedule 4, represents the 1985 statement of income as adjusted for 1986 tax laws.

SJLP Exhibit No. 1, Schedule 5, illustrates the computation of current and deferred income tax expense for the Company's Missouri jurisdictional operations. This calculation was prepared in a manner comparable to the Company's last rate order, and in accordance with 1986 income tax laws.

SJLP Exhibit No. 1, Schedule 6, provides deferred tax reserve balances related to each type of book/tax timing differences adjusted for modifications required by the 1986 tax law.

II. Tax Law in Effect for 1987

The revenue requirements for the Company's 1985 Missouri jurisdictional electric, natural gas and industrial steam

operations calculated in accordance with 1987 tax laws are \$63,385,279, \$5,367,869 and \$4,341,192, respectively.

SJLP Exhibit No. 2, Schedule 1-6 provides supporting documentation utilized in computing these revenue requirements. Schedule 2 represents Company rate base at December 31, 1985. Year-end balances were adjusted to reflect allocations among utility services which were made in a manner comparable to the Company's last rate order. Additionally, deferred tax reserves were adjusted to reflect the effect of the revised tax laws.

SJLP Exhibit No. 2, Schedule 3, illustrates the Company's cost of capital at December 31, 1985. Existing balances and cost of monies at that date were utilized except for a redetermination of common equity based on the results of determining net income for 1985 utilizing 1987 tax laws.

SJLP Exhibit No. 2, Schedule 4, represents the 1985 statement of income as adjusted for 1987 tax laws.

SJLP Exhibit No. 2, Schedule 5, illustrates the computation of current and deferred income tax expense for the Company's Missouri jurisdictional operations. This calculation was prepared in a manner comparable to the Company's last rate order, and in accordance with 1987 income tax laws.

SJLP Exhibit No. 2, Schedule 6, provides deferred tax reserve balances related to each type of book/tax timing differences adjusted for modifications required by the 1987 tax law.

III. Tax Laws in Effect for 1988

The revenue requirements for the Company's 1985 Missouri jurisdictional electric, natural gas and industrial steam

operations calculated in accordance with 1988 tax laws are \$62,173,019, \$5,349,057 and \$4,309,001, respectively.

SJLP Exhibit No. 3, Schedules 1-6 provides supporting documentation utilized in computing these revenue requirements. Schedule 2 represents Company rate base at December 31, 1985. Year-end balances were adjusted to reflect allocations among utility services which were made in a manner comparable to the Company's last rate order. Additionally, deferred tax reserves were adjusted to reflect the effect of the revised tax laws.

SJLP Exhibit No. 3, Schedule 3, illustrates the Company's cost of capital at December 31, 1985. Existing balances and cost of monies at that date were utilized except for a redetermination of common equity based on the results of determining net income for 1985 utilizing 1988 tax laws.

SJLP Exhibit No. 3, Schedule 4, represents the 1985 statement of income as adjusted for 1988 tax laws.

SJLP Exhibit No. 3, Schedule 5, illustrates the computation of current and deferred income tax expense for the Company's Missouri jurisdictional operations. This calculation was prepared in a manner comparable to the Company's last rate order, and in accordance with 1988 income tax laws.

SJLP Exhibit No. 3, Schedule 6, provides deferred tax reserve balances related to each type of book/tax timing differences adjusted for modifications required by the 1988 tax law.

IV. Excess Deferred Tax Reserves

SJLP Exhibit No. 4, Schedule 1, pages 1 through 11, reflects the computation of the amount of excess deferred tax reserves

attributable to the turn-around of timing differences related to accelerated depreciation. The calculation was prepared in compliance with the new tax law based on the average assumption method to be utilized for the return of such excess reserves.

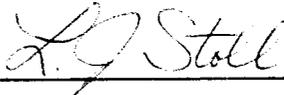

V. Additional Information

As requested by Case AO-87-48, the information provided in this filing reflects a historical period of the Company's operations, modified by only one (the Tax Reform Act of 1986) of many changes that have occurred since that period. Because of the limited adjustments, the information provided herein should not be viewed as an alternative for test period rate case application. A proper determination of charges made for utility service must be based on all relevant factors.

St. Joseph Light & Power Company continually reviews its financial position based on circumstances known at that time and circumstances anticipated in the future. The Company views taxes as one of many expenditures which continually change. If as a result of the combined changes in all elements of the Company's cost of service, the Company determines that adjustments to its Missouri jurisdictional rates are appropriate, a tariff filing with the Commission will be made to reflect those changes.

STATE OF MISSOURI)
