

BEFORE THE PUBLIC SERVICE COMMISSION OF THE STATE OF MISSOURI

In the Matter of RDG Development, LLC for a Certificate)
of Convenience and Necessity Authorizing it to Own,) **File No. SA-2010-0096**
Operate, Maintain, Control and Manage a Sewer System)
in Callaway County, Missouri)

ORDER ESTABLISHING A RESPONSE DEADLINE AND DIRECTING FILING

Issue Date: March 25, 2010

Effective Date: March 25, 2010

On September 14, 2009, RDG Development, L.L.C. ("RDG") filed an application requesting the Commission grant it authority to own, operate, maintain, control and manage an existing sewer system that it acquired in Callaway County, Missouri. The system serves approximately 33 residential customers in the Greenwood Hills Subdivision.

The Commission granted that certificate conditionally on December 9, 2010. The conditions imposed were requested by the Commission's Staff. One of those conditions was to have RDG satisfy the Department of Natural Resources' ("DNR") requirement of retaining a certified operator. Another was to have RDG submit a map of the Greenwood Hills Subdivision that shows, at a minimum, the location of the manholes and sewer collection main lines.

On March 24, 2010, Staff requested the Commission find the condition of retaining a certified operator had been satisfied because it had discovered that RDG's DNR permit currently does not require one. Staff also requests a finding that the condition requiring the submission of a map showing the location of the manholes and sewer collection main lines has been satisfied.

The Commission will set a response deadline and direct its Staff to clarify its requests.

THE COMMISSION ORDERS THAT:

1. Any party wishing to file a response to The Staff of the Missouri Public Service Commission's request shall file that response no later than April 5, 2010.

2. No later than April 5, 2010, the Commission's Staff shall file a recommendation as to whether the Commission should maintain the requirement for RDG Development, L.L.C. to retain a certified operator even in the absence of a requirement by the Department of Natural Resources. That recommendation shall explain the nature and purpose of having operators of sewer systems obtain certification and describe the entities providing certification.

3. This order shall become effective immediately upon issue.

BY THE COMMISSION

Steven C. Reed
Secretary

(S E A L)

Harold Stearley, Senior Regulatory Law Judge,
by delegation of authority pursuant to
Section 386.240, RSMo 2000.

Dated at Jefferson City, Missouri,
on this 25th day of March, 2010.
