**Re: Modified Letter Providing Financial Assurance Regarding Wolf Creek-
Blackberry 345 kV Transmission Line Operations**

Ladies and Gentlemen:

NextEra Energy Transmission Southwest, LLC (“NEET Southwest”), a Delaware limited liability company, has advised its indirect parent company NextEra Energy Capital Holdings, Inc. (“NEECH”), a Florida corporation and wholly owned subsidiary of NextEra Energy, Inc., that NEET Southwest has filed applications for authority to construct, own, and operate the Wolf Creek-Blackberry 345 kV Transmission Line in Kansas and Missouri (the “Project”). NEECH understands that NEET Southwest has entered into a Nonunanimous Settlement Agreement with parties in the proceeding before the Kansas Corporation Commission (“KCC”) committing that an affiliate provide financial assurance in support of NEET Southwest’s ownership and operation of the Project.

As Vice President & Treasurer of NEECH, I am providing this letter to confirm NEECH’s commitment that, for the first 40 years of operation of the Project, NEECH and its successors and/or assigns will provide or secure equity capital injections up to \$10 million per year, as needed to maintain the financial integrity of the Project consistent with an investment-grade credit profile. Following the initial 40-year period, NEECH and its successors and/or assigns and NEET Southwest will review and assess whether this financial commitment remains necessary to maintain the financial integrity of the Project, consistent with an investment-grade credit profile, for the remaining depreciable life of the Project.

Sincerely,

NEXTERA ENERGY CAPITAL HOLDINGS, INC.
