

**BEFORE THE PUBLIC SERVICE COMMISSION  
OF THE STATE OF MISSOURI**

In the Matter of Union Electric Company d/b/a            )  
Ameren Missouri’s 2nd Filing to Implement            )        File No. EO-2015-0055  
Regulatory Changes in Furtherance of Energy        )  
Efficiency as Allowed by MEEIA.                        )

**REQUEST TO REVISE  
TECHNICAL RESOURCE MANUAL**

COMES NOW Union Electric Company d/b/a Ameren Missouri (“Ameren Missouri” or “the Company”), and submits this *Request to Revise Technical Resource Manual* (“Request”) to the Missouri Public Service Commission (“Commission”) for approval. In support thereof, the Company respectfully states as follows:

1. On February 5, 2016, Ameren Missouri and certain other parties to this proceeding submitted a *Non-Unanimous Stipulation and Agreement* (“*Agreement*”) to the Commission for approval. After receiving no objections, the Commission issued its *Order Approving Non-Unanimous Stipulation and Agreement* on February 10, 2016.

2. In approving the *Agreement*, the Commission also approved a Company-specific Technical Resource Manual (“TRM”). The TRM sets forth measures, the level of energy savings, incremental costs and effective, useful lives associated with each measure. The TRM, and certain updates thereto, are also used to calculate throughput disincentive on a prospective basis (subject to DSIM<sup>1</sup> true-up provisions).

3. Ameren Missouri's 2016-18 Energy Efficiency Plan (“MEEIA Cycle 2”) anticipates a dynamic TRM with annual updates responsive to evaluation, measurement, and verification (“EM&V”) results as well as the changing energy efficiency standards and

environment. See Ameren Missouri's MEEIA Cycle 2 Report submitted to the Commission on December 22, 2014, at pages 60-63 for more information regarding this process.

4. During the implementation of the business programs, it became apparent that additional measures should be offered to business customers. The energy and demand savings and costs associated with these additional measures have been reviewed by the Implementation Team and the Company's implementation and evaluation contractors. Additionally, Ameren Missouri provided its proposed TRM revisions to MEEIA Cycle 2 stakeholders, and received no feedback. The measure changes have undergone a cost effectiveness analysis, and will not require any adjustment of the portfolio's goals. As a result, Ameren Missouri offers a revised TRM for the Commission's approval. These proposed revisions:

- Add five new measures to Ameren Missouri's portfolio;
- Update the TRM effective date to accommodate new measures; and
- Update contact information for relevant Company staff.

The revisions are found and explained in the following attachments:

<b>Attachment</b>	<b>Name</b>	<b>Description</b>
A	<i>Revised TRM Appendix for 2017</i>	Final, clean copy of revised TRM
B	<i>Revised TRM Appendix for 2017 Redline</i>	Redlined copy of revised TRM so revisions can be identified
C	Supportive Information for TRM Measure Additions	Contains information in spreadsheet format outlining and providing support for the proposed TRM Measure additions.

5. Based on the information provided herein, Ameren Missouri asks the Commission to approve the TRM as revised.

**WHEREFORE**, Ameren Missouri requests the Commission issue an order approving the proposed revisions to the TRM.

Respectfully submitted,

*/s/ Paula N. Johnson*
