to intervene or requested a hearing, the Commission may grant the relief requested based on the verified application.

LDNS filed a proposed tariff in conjunction with its application and filed substitute sheets on July 28, August 4, and August 17. The tariff's effective date was originally August 3, but by letter dated July 23, LDNS requested an extension of the tariff effective date until August 17. On August 6, 1998, LDNS filed a second letter requesting an extension from August 17 until August 31. LDNS's tariff describes the rates, rules, and regulations it intends to use, identifies LDNS as a competitive company, and lists the waivers requested. LDNS intends to provide interexchange telecommunications services including 1+ services, 800/888/877 services and travel card services.

In its Memorandum filed on August 20, the Staff of the Commission stated that LDNS's proposed services are similar to existing IXC offerings. Staff recommended that the Commission grant LDNS a certificate of service authority, competitive status, and waiver of the statutes and rules listed in the Notice. Staff recommended that the Commission approve the proposed tariff as amended to become effective on August 31.

The Commission finds that competition in the intrastate interexchange telecommunications market is in the public interest and LDNS should be granted a certificate of service authority. The Commission finds that the services LDNS proposes to offer are competitive and LDNS should be classified as a competitive company. The Commission finds that waiving the statutes and Commission rules set out in the ordered paragraph below is reasonable and not detrimental to the public interest.

The Commission finds that LDNS's proposed tariff details the services, equipment, and pricing it proposes to offer, and is similar to tariffs approved for other Missouri certificated interexchange carriers. The Commission finds that the proposed tariff filed on June 18 shall be approved as amended to become effective on August 31.

IT IS THEREFORE ORDERED:

1. That LD Network Services, Inc. is granted a certificate of service authority to provide intrastate interexchange telecommunications services in the state of Missouri, subject to all applicable statutes and Commission rules except as specified in this order.

2. That LD Network Services, Inc. is classified as a competitive telecommunications company. Application of the following statutes and regulatory rules shall be waived:
