**Please describe the methods your agency considered or used to reduce the impact on small businesses** *(examples: consolidation, simplification, differing compliance, differing reporting requirements, less stringent deadlines, performance rather than design standards, exemption, or any other mitigating technique).*

During the MPSC's review and work on the proposed rule modifications, the MPSC solicited the involvement of small water and sewer utility businesses to participate in the working group to capture possible differences in compliance and standards. It appears there are no significant differences in compliance, reporting or any other mitigating techniques that would impact small businesses. In addition, all small regulated water and sewer companies today have filed and approved tariffs that have similar language to that of the proposed rule.

**Please explain how your agency has involved small businesses in the development of the proposed rule.**

During the MPSC's review and work on the proposed rule modifications over the last seven years, the MPSC solicited the involvement of electric, gas, small water and sewer utility businesses, to participate in the working group meetings to develop the proposed rule.

**Please list the probable monetary costs and benefits to your agency and any other agencies affected. Please include the estimated total amount your agency expects to collect from additionally imposed fees and how the moneys will be used.**

The proposed rule will have no monetary impact on the MPSC or any other state agency.

**Please describe small businesses that will be required to comply with the proposed rule and how they may be adversely affected.**

Small sewer utilities who currently do not fall under the proposed rule regarding residential billing and service standards of the MPSC will be required to comply with the proposed rule, however, currently these small sewer utilities have filed and approved tariffs that generally incorporate the same procedures and practices, it does not appear they will be adversely affected by this proposed rule.

**Please list direct and indirect costs (in dollars amounts) associated with compliance.**

There should be minimal if any direct and indirect costs associated with compliance. All small water and sewer utilities currently have filed and approved tariffs that have similar language to that found in the proposed rule.

**Please list types of business that will be directly affected by, bear the cost of, or directly benefit from the proposed rule.**

Regulated electric, gas, sewer and water utilities.

**Does the proposed rule include provisions that are more stringent than those mandated by comparable or related federal, state, or county standards?**

Yes\_\_\_ No X\_\_

**If yes, please explain the reason for imposing a more stringent standard.**

*For further guidance in the completion of this statement, please see §536.300, RSMo.*
