requirement for a hearing is met when the opportunity for hearing has been provided and no proper party has requested the opportunity to present evidence. State ex rel. Rex Deffenderfer Enterprises, Inc. v. Public Service Commission, 776 S.W.2d 494, 496 (Mo. App. 1989). Since no one has asked permission to intervene or requested a hearing, the Commission may grant the relief requested based on the verified application.

One Stop filed a proposed tariff in conjunction with its application, and filed substitute sheets on August 10 and September 24. The tariff's original effective date was August 28. On August 3, One Stop extended the effective date to September 4, and on August 10 filed a revised tariff with its amended application. On August 19 an order was issued suspending the effective date until October 4. On September 24 One Stop extended the effective date of its tariff to October 9.

One Stop's tariff describes the rates, rules, and regulations it intends to use, identifies One Stop as a competitive company, and lists the waivers requested. One Stop intends to provide interexchange and nonswitched local exchange telecommunications services including 1+ direct dial, 800/888/877 services, private line, and travel card services.

In its Memorandum filed on September 30, the Staff of the Commission stated that One Stop's proposed services are similar to existing IXC offerings. Staff recommended that the Commission grant One Stop a certificate of interexchange service authority, and a certificate of service authority for local exchange telecommunication services on condition that this authority be restricted to providing

dedicated, nonswitched local exchange private line services. Staff recommended that the Commission grant One Stop competitive status, and waiver of the statutes and rules listed in the Notice. Staff recommended that the Commission approve the proposed tariff as amended to become effective on October 9.

The Commission finds that competition in the intrastate interexchange and nonswitched local exchange telecommunications markets is in the public interest and One Stop should be granted certificates of service authority. The Commission finds that the services One Stop proposes to offer are competitive and One Stop should be classified as a competitive company. The Commission finds that waiving the statutes and Commission rules set out in the ordered paragraph below is reasonable and not detrimental to the public interest.

The Commission finds that One Stop's proposed tariff details the services, equipment, and pricing it proposes to offer, and is similar to tariffs approved for other Missouri certificated interexchange and nonswitched local exchange carriers. The Commission finds that the proposed tariff filed on July 14 shall be approved as amended to become effective on October 9.

IT IS THEREFORE ORDERED:

1. That One Stop Telecommunications, Inc. is granted a certificate of service authority to provide intrastate interexchange telecommunications services in the state of Missouri, subject to the conditions of certification set out above.

2. That One Stop Telecommunications, Inc. is granted a certificate of service authority to provide local exchange telecommunications services in the state of Missouri limited to providing dedicated,

nonswitched local exchange private line services, subject to all applicable statutes and Commission rules except as specified in this order.

3. That One Stop Telecommunications, Inc. is classified as a competitive telecommunications company. Application of the following statutes and regulatory rules shall be waived:
