

SCHEDULE NW-6

Coverage Locator

This tool identifies where Verizon Wireless offers service.

Enter either the zip code or the city and state for corresponding wireless coverage information.

Please verify the spelling of the city name as we cannot locate it within the state you selected

Zoom Out Zoom In

Verizon Wireless Network:

- Digital*
- Analog
- No Coverage

* With All Digital devices, you can only make and receive calls where digital service is available.

What coverage do you want to view?

Important information about Coverage Locator Maps

This map is not a guarantee of coverage and may contain areas with no service.

This map shows approximately where rates and outdoor coverage apply based on our internal data. Wireless service is subject to limitations, particularly near boundaries and in remote areas. Customer equipment, cell site availability, topography and other environmental considerations also affect service, which may vary significantly within buildings. [With "all-digital" devices you can only make and receive

Coverage Locator

calls when digital service is available. When digital service is not available your device will not operate or be able to make 911 calls.] Check your roaming indicator to determine where rates apply.
