SHERIFF REPORTS

July 2

At 5:45 p.m., Callaway County Sheriff's Office deputies responded to a disturbance with shots fired in the area of County Road 4036. As a result of the investigation; Michael Brewer, 53, of Hollis Summit, was arrested on suspicion of felony unlawful use of a weapon, felony assault and armed criminal action. Brewer was booked/processed at the Callaway County Jail and later released on July 8 after posting a court set bond of \$100,000.

At 10:33 a.m., a Callaway County Sheriff's Office deputy was proactively patrolling County Road 262. During the patrol, the deputy stopped a vehicle reference a traffic violation. Gina Young, 28, of Mexico, was subsequently arrested for a Missouri Department of Corrections felony probation violation warrant and an Audrain County warrant on the original charge of felony possession of a controlled substance. Young was booked/processed at the Callaway County Jail and later transferred to the Audrain County Jail.

July 1

At 2:30 p.m., a Callaway County Sheriff's Office deputy was proactively patrolling the area of State Road F. During the course of the patrol, the deputy stopped Jess Murrell, 28, of Fulton, reference to a traffic violation. Felony level controlled substances and methamphetamine related items were reportedly located. Murrell was arrested on suspicion of felony delivery of a controlled substance, booked/processed at the Callaway County Jail and later posted bond.

June 26

At 1:26 a.m., a Callaway County Sheriff's Office deputy was proactively patrolling the area of County Road 147. During the course of the patrol, the deputy stopped Christine Davis, 36, of Bowling Green, Missouri, reference to a traffic violation. Davis was subsequently arrested for a Pettis County felony warrant for probation violation (original charge - felony possession of a controlled substance). Davis was booked/processed at the Callaway County Jail and later transferred to the Pettis County Jail.

June 25

At 4:09 p.m., Callaway County Sheriff's Office deputies conducted an investigation in the County Road 123 area. During the investigation; John Belle, 43, of Fulton, reportedly fled from deputies and was eventually captured after jumping off a residence roof. Belle was booked/processed at the Callaway County Jail and remains in-custody without bond, per court directive, on suspicion of the felony offenses of fail to register as a sex offender and resisting arrest.

At 10:46 a.m., Callaway County Sheriff's Office deputies conducted an investigation in the County Road 211 area. As a result of the investigation; John Caulder, 23, of Columbia, was arrested on suspicion of felony delivery of a controlled substance. Caulder was booked/processed at the Callaway County Jail and later posted bond.

June 24

At 1:23 p.m., the Callaway County Sheriff's Office - assisted by the Fulton Police Department and the MUSTANG drug task force - executed a drug related search warrant in the 900 block of East Avenue, Fulton. The warrant had been obtained as the result of an ongoing Sheriff's Office drug investigation. Methamphetamine and other controlled substances were reportedly located. Neal Bolton, 58, of Fulton, was arrested on suspicion of felony possession of a controlled substance, booked/processed at the Callaway County Jail and later released with summons for court appearance.

June 22

At 7:55 p.m., Callaway County Sheriff's Office deputies, assisted by the Missouri State Highway Patrol, conducted an investigation in the 3000 block of Gold Road. Subsequently, Rilan Retter, 25, of Lee's Summit, was arrested for a Cooper County felony traffic warrant. Retter was booked/processed at the Callaway County Jail and later transferred to the Cooper County Jail.

At 7:40 p.m., Callaway County Sheriff's Office deputies investi-

gated a burglary/theft offense in the State Road F area. As a result of the investigation; Alyshia Cardwell, 34, of Kingdom City, was arrested on suspicion of second-degree (felony) burglary. Cardwell was booked/processed at the Callaway County Jail and remains in-custody pending bond post.

June 21

At 4:10 p.m., a Callaway County Sheriff's Office deputy was proactively patrolling the State Road D area. During the course of the patrol, the deputy stopped Justin Rothove, 32, of Portland, Missouri for a traffic violation. Rothove was arrested in reference to a Callaway County warrant for felony probation violation (original offense - felony possession of a controlled substance). Rothove was booked/processed at the Callaway County Jail and remains in-custody without bond, per court order.

June 20

At 8:36 p.m., Callaway County Sheriff's Office deputies conducted an investigation concerning a disturbance involving weapons in the area of Old Highway 54 near New Bloomfield. As a result of the investigation; Allan Turner, 44, of New Bloomfield, was arrested on suspicion of the felony offenses of attempted burglary, unlawful use of a weapon, armed criminal action and second-degree assault. Turner remains in-custody at the Callaway County Jail without bond, per court directive.

June 17

At 3:58 p.m., a Callaway County Sheriff's Office deputy was proactively patrolling State Road J. During the course of the patrol, the deputy reportedly attempted to stop Jason Mechlin, 36, for a traffic violation. Mechlin subsequently fled, leading the deputy on a pursuit into Boone County on State Road WW. The pursuit was ultimately terminated. On June 22 the deputy located Mechlin at a residence in the County Road 269 area and arrested him. Mechlin was booked/processed at the Callaway County Jail on suspicion of felony resisting arrest and later posted bond.

At 6:15 a.m., the Callaway County Sheriff's Office - assisted by the Fulton Police Department and the MUSTANG drug task force - executed a drug-related search warrant in the 1100 block of Grand Street, Fulton. The warrant had been obtained as the result of an ongoing Sheriff's Office drug investigation. Methamphetamine, other controlled substances and illegally possessed firearms were reportedly recovered. Damien Green, 45, of Jefferson City, was arrested on suspicion of felony possession of a controlled substance. Nathan Harra, 50, of Fulton, was arrested on suspicion of unlawful possession of a firearm. Amanda Harra, 49, of Fulton, was arrested on suspicion of felony possession of a controlled substance and felony unlawful use of a weapon. All were booked/processed at the Callaway County Jail and released on bond.

June 16

At 4:20 p.m., Callaway County Sheriff's Office deputies conducted an investigation in the area of State Road 33. Subsequently; deputies located and arrested Paul Brown, 52, of Williamsburg, in reference to a Pulaski County warrant for probation violation (original charge - felony possession of a controlled substance). Brown was booked/processed at the Callaway County Jail and later transferred to the Pulaski County Jail.

June 15

At 12:24 a.m., Callaway County Sheriff's Office deputies investigated a disturbance in the 5000 block of Jade Road. As a result of the investigation; Brian Lafoe, 18, of Columbia, was arrested on suspicion of (felony) burglary. Lafoe was booked/processed at the Callaway County Jail and later released with summons for court appearance.

June 13

At 8:02 p.m., Callaway County Sheriff's Office deputies investi-

gated a burglary/theft offense in the State Road F area. As a result of the investigation; Alyshia Cardwell, 34, of Kingdom City, was arrested on suspicion of second-degree (felony) burglary. Cardwell was booked/processed at the Callaway County Jail and remains in-custody pending bond post.

At 3:59 p.m., Callaway County Sheriff's Office deputies conducted an investigation at a Kingdom City area business. During the course of the investigation, deputies located and arrested Janissa Wilson, 27, of Columbia. Wilson was wanted reference a Missouri Department of Corrections (MDOC) parole violation warrant and a Polk County felony probation violation warrant. Wilson was booked/processed at the Callaway County Jail and later transferred to MDOC custody.

June 12

At 9:55 a.m., Callaway County Sheriff's Office deputies conducted an investigation in the Portland area. During the course of the investigation, methamphetamine was located. Lance Quirk, 47, of Portland, was arrested on suspicion of felony possession of a controlled substance, booked/processed at the Callaway County Jail and later released with summons for court appearance.

June 11

At 10:09 p.m., Callaway County Sheriff's Office deputies conducted an investigation in the County Road 262 area. During the course of the investigation, deputies located and arrested Sandra Montcalm, 53, of Auxvasse. Montcalm was wanted in reference to a Callaway County felony warrant for probation violation (original charge - weapons offense). Montcalm was booked/processed at the Callaway County Jail and remains in-custody pending bond post.

At 6:59 p.m., Callaway County Sheriff's Office deputies - assisted by KS Iro - conducted an investigation in the area of State Road JJ. Methamphetamine was reportedly located. Samuel Barrick, 45, of Fulton, was arrested on suspicion of felony possession of a controlled substance. Barrick was booked/processed at the Callaway County Jail and later released with summons for court appearance.

June 10

At 5:37 p.m., Callaway County Sheriff's Office deputies conducted an investigation in the 3000 block of Gold Road. As a result of the investigation; Anna Johnson, 49, of Fulton, was arrested on suspicion of felony stealing. Johnson was booked/processed at the Callaway County Jail and later released with summons for court appearance.

At 1:10 a.m., Callaway County Sheriff's Office deputies conducted an investigation in the area of County Road 346 and State Road J. During the course of the investigation, deputies located Darren Yancey, 34, of Fulton. Yancey was wanted in reference to a Callaway County felony warrant on the charge of fail to register as a sex offender. Yancey was booked/processed at the Callaway County Jail and remains in custody pending bond post.

June 8

At 11:12 p.m., Callaway County Sheriff's Office deputies conducted an investigation in the area of County Road 4009. Deputies subsequently located and arrested Cory Dwyer, 33, of Hollis Summit, in reference to a Lafayette County warrant on the charge of felony possession of a controlled substance. Additionally, methamphetamine was reportedly located, leading to an additional felony drug charge. Dwyer remains in-custody at the Callaway County Jail pending bond post.

At 3:53 p.m., Callaway County Sheriff's Office deputies conducted an investigation in the 4000 block of State Road J. Subsequently, deputies located and arrested Zachary Booker - whom reportedly attempted to deceive deputies as to his identity - reference numerous Jackson and Clay County felony warrants. Additionally, methamphetamine and other controlled substances were reportedly located at the time of arrest. Booker was booked/processed at the Callaway County Jail and later transferred to the custody

Invenergy Transmission

Tiger Connector

Tiger Connector

Delivering Affordable, Reliable Energy

The Grain Belt Express Tiger Connector is an approximately 40-mile-long electric transmission line that will connect existing power infrastructure - the McCredie Substation, located in Callaway County, Missouri - to new power delivery. This new power delivery is provided by the approved Grain Belt Express transmission line to be built in North Missouri. The proposed point of interconnection is in Monroe County, Missouri.

The Grain Belt Express Tiger Connector is one part of a vital infrastructure project built to meet the energy needs of Midwestern families and businesses by providing access to more affordable, reliable power. Tiger Connector will enable delivery of these benefits to more Missouri homes and businesses, by connecting the largest power grids that serve Missouri consumers.

Tiger Connector, an extension of the Grain Belt Express transmission project, will bring the economic and energy benefits of 100% homegrown energy to more of Missouri - lowering energy costs and improving reliability for more Missourians.

Homegrown energy that's affordable and reliable. This is what Tiger Connector will deliver.

How do I know if I'm impacted?

Landowners along the routes being considered have been notified by mail. To learn more about the project, visit GrainBeltExpress.com/Tiger-Connector.

We Want to Hear from You!

Clerk Letter

July 12, 2022

[Clerk Name and Address]

Re: Grain Belt Express Tiger Connector Transmission Line - Notice of Public Meeting

Dear Clerk [Full Name],

You are receiving this letter to notify you about the Grain Belt Express Tiger Connector project in Audrain, Callaway, and Monroe Counties and to invite you to attend an upcoming public meeting in your area. The Tiger Connector is an approximately 40-mile-long electric transmission line that will connect existing power infrastructure – the McCredie Substation, located in Callaway County, Missouri – to new power delivery. This new power delivery is provided by the approved Grain Belt Express transmission line to be built in North Missouri. The proposed point of interconnection is in Monroe County, Missouri.

The Tiger Connector interconnects in Monroe County and traverses Audrain and Callaway Counties. Potentially impacted landowners in each of these counties have been notified by letter and invited to participate in the public meetings.

Public meetings will be held at the times and locations below:

<p>Audrain Tuesday, July 26</p> <p>Knights of Columbus 9584 State Hwy 15, Mexico, MO 65265</p> <p>Meeting 1 12:00 p.m. to 2:00 p.m. OR Meeting 2 5:00 p.m. to 7:00 p.m.</p>	<p>Callaway Wednesday, July 27</p> <p>John C Harris Community Center 350 Sycamore St, Fulton, MO 65251</p> <p>Meeting 1 12:00 p.m. to 2:00 p.m. OR Meeting 2 5:00 p.m. to 7:00 p.m.</p>
---	---

The public meetings will be open house format and attendees can come and go as they please during meeting hours. No formal presentation will be given. For those unable to attend in-person, there is a self-paced Virtual Open House that is accessible on the website anytime, GrainBeltExpress.com/Tiger-Connector, between July 25 and August 5, 2022.

Delivering affordable, reliable energy for Missouri customers.

The Tiger Connector is one part of a vital infrastructure project built to meet the energy needs of Midwestern families and businesses by providing access to more affordable, reliable power. In linking Grain Belt Express to existing transmission infrastructure, Tiger Connector will bring the economic and energy benefits of Grain Belt Express to more Missouri homes and businesses by connecting the largest power grids that serve Missouri consumers.

The benefits of this project include:

- An easement package that provides landowner protections and fair compensation.
- \$4.4 billion in forecasted energy cost savings and additional reliability benefits for energy consumers across Missouri.
- New local jobs, spending, and economic activity during construction, and new community tax revenue for the life of the project.
- 100% clean, domestic power to strengthen America's energy independence – the equivalent of two new nuclear plants worth of homegrown energy available to Missouri consumers.

For additional information about the project, visit our website at GrainBeltExpress.com/TigerConnector, leave a message on our hotline at 866.452.4082, ext. 2 or email us at TigerConnector@GrainBeltExpress.com. Additionally, if you have any questions, please do not hesitate to contact me at pwhitty@invenergy.com or 515.988.3650. Thank you in advance for your time and consideration.

Sincerely,

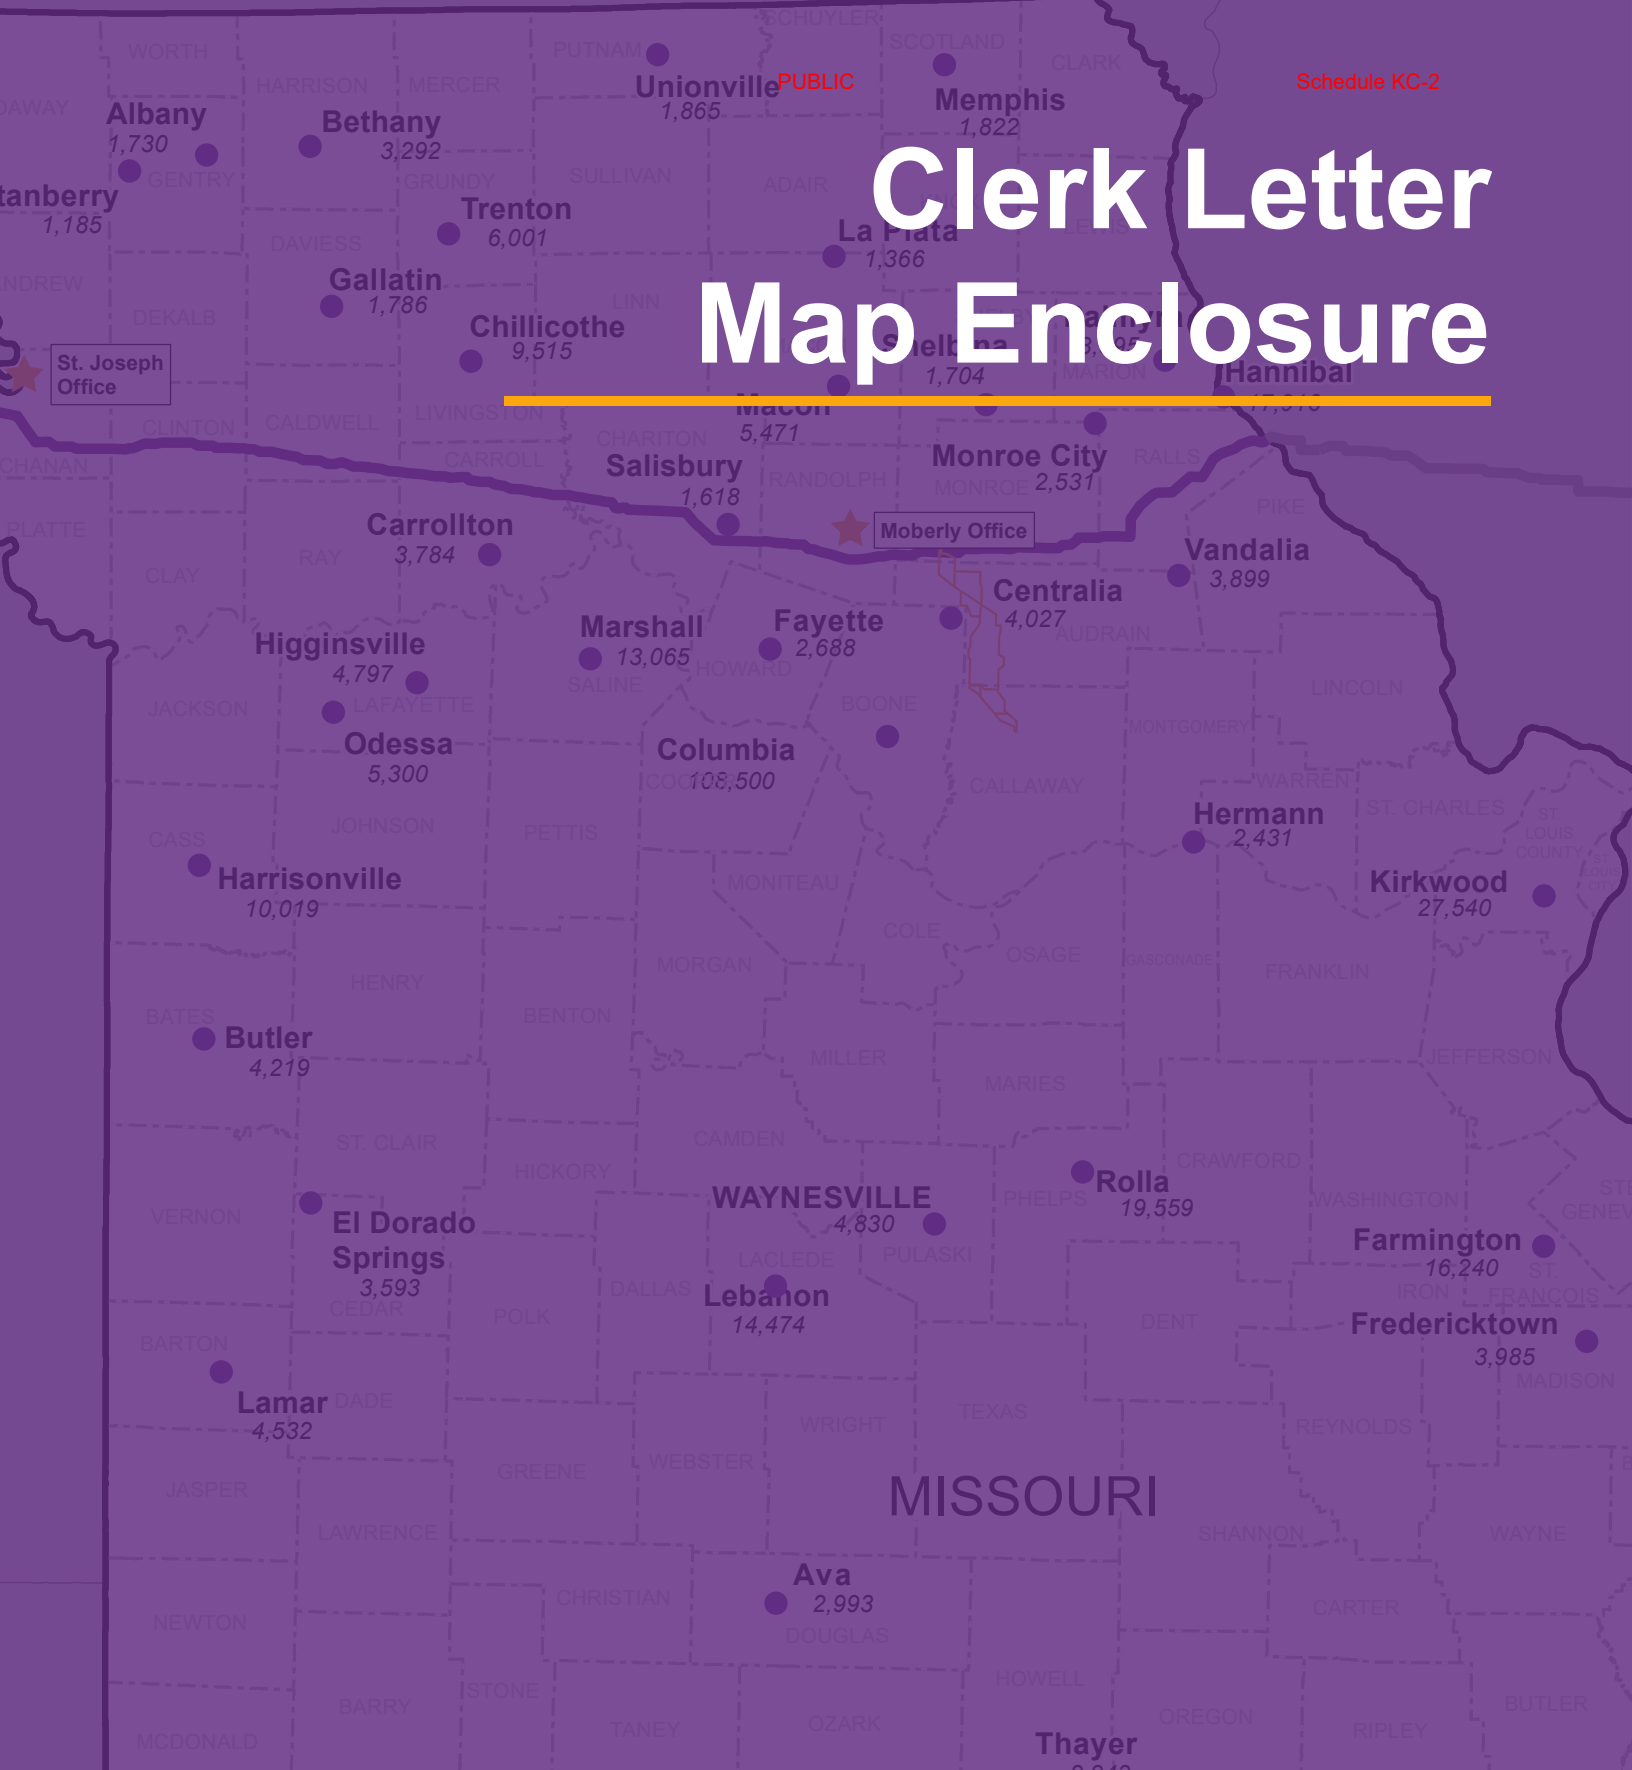

Patrick Whitty
Vice President
Invenergy Transmission

Re: Grain Belt Express Tiger Connector Transmission Line - Notice of Public Meeting

You are receiving this letter to notify you about the Grain Belt Express Tiger Connector project in Audrain, Callaway, and Monroe Counties and to invite you to attend an upcoming public meeting in your area. According to our records, you own at least one parcel along one of the route options being considered for the proposed Grain Belt Express Tiger Connector transmission delivery link.

As valued members of the community and landowners along routes being considered, we would like to invite you to join us for the public meetings being held in your area to learn more about the project, view detailed maps of the route options being considered, and talk with members of the project team. Each meeting will present the same information. Meetings are being held in Audrain County and Callaway County, Missouri. Please attend whichever meeting is most convenient with your schedule. Your input will help us make better decisions as we determine our proposed route for the Missouri Public Service Commission. We look forward to meeting you at one of the following meetings.

What Is the Tiger Connector?

The Tiger Connector is an approximately 40-mile-long electric transmission line that will connect existing power infrastructure – the McCredie Substation, located in Callaway County, Missouri – to new power delivery. This new power delivery is provided by the approved Grain Belt Express transmission line to be built in North Missouri. The proposed point of interconnection is in Monroe County, Missouri.

What are the Benefits?

The Tiger Connector is one part of a vital infrastructure project built to meet the energy needs of Midwestern families and businesses by providing access to more affordable, reliable power. In linking Grain Belt Express to existing transmission infrastructure, Tiger Connector will bring the economic and energy benefits of Grain Belt Express to more Missouri homes and businesses by connecting all of the largest power grids that serve Missouri consumers.

The benefits of this project include:

- An easement package that provides landowner protections and fair compensation
- \$4.4 billion in forecasted energy cost savings and additional reliability benefits for energy consumers across Missouri.
- New local jobs, spending, and economic activity during construction, and new community tax revenue for the life of the project.
- 100% clean, domestic power to strengthen America's energy independence – the equivalent of two new nuclear power plants worth of homegrown energy available to Missouri consumers.

Project History and Current Status

Owned by Invenergy Transmission – a Midwest based energy developer – Grain Belt Express was approved by the Missouri Public Utility Commission in 2019. The project has an existing service agreement that will provide \$12.8 million in annual energy savings for 39 municipal utilities across Missouri. The Tiger Connector will significantly expand those savings and benefits, providing more power delivery to Missouri.

Across our projects, Invenergy has relationships with over 12,000 landowners, more than 80 percent of whom are farmers and ranchers. We know how to build - the right way - treating landowners with respect and fairness. We've been working with landowners across Missouri securing voluntary easements for the Grain Belt Express since 2020. This notice is our first step in working with the community to develop routes for the Grain Belt Express Tiger Connector.

What to Expect at the Meeting

The public meetings will be open house format and attendees can come and go as they please during meeting hours. No formal presentation will be given. Any person unable to attend the in-person meeting can view and provide comments through a self-paced Virtual Open House. The Virtual Open House will be accessible on the website between July 25 and August 5, 2022. To join, visit GrainBeltExpress.com/Tiger-Connector.

We have included a map of the Tiger Connector route options currently being considered. Detailed parcel maps will be available at the public meetings. For additional information, visit our website at GrainBeltExpress.com/Tiger-Connector, leave a message on our hotline at 866-452-4082, ext. 2 or email us at TigerConnector@GrainBeltExpress.com.

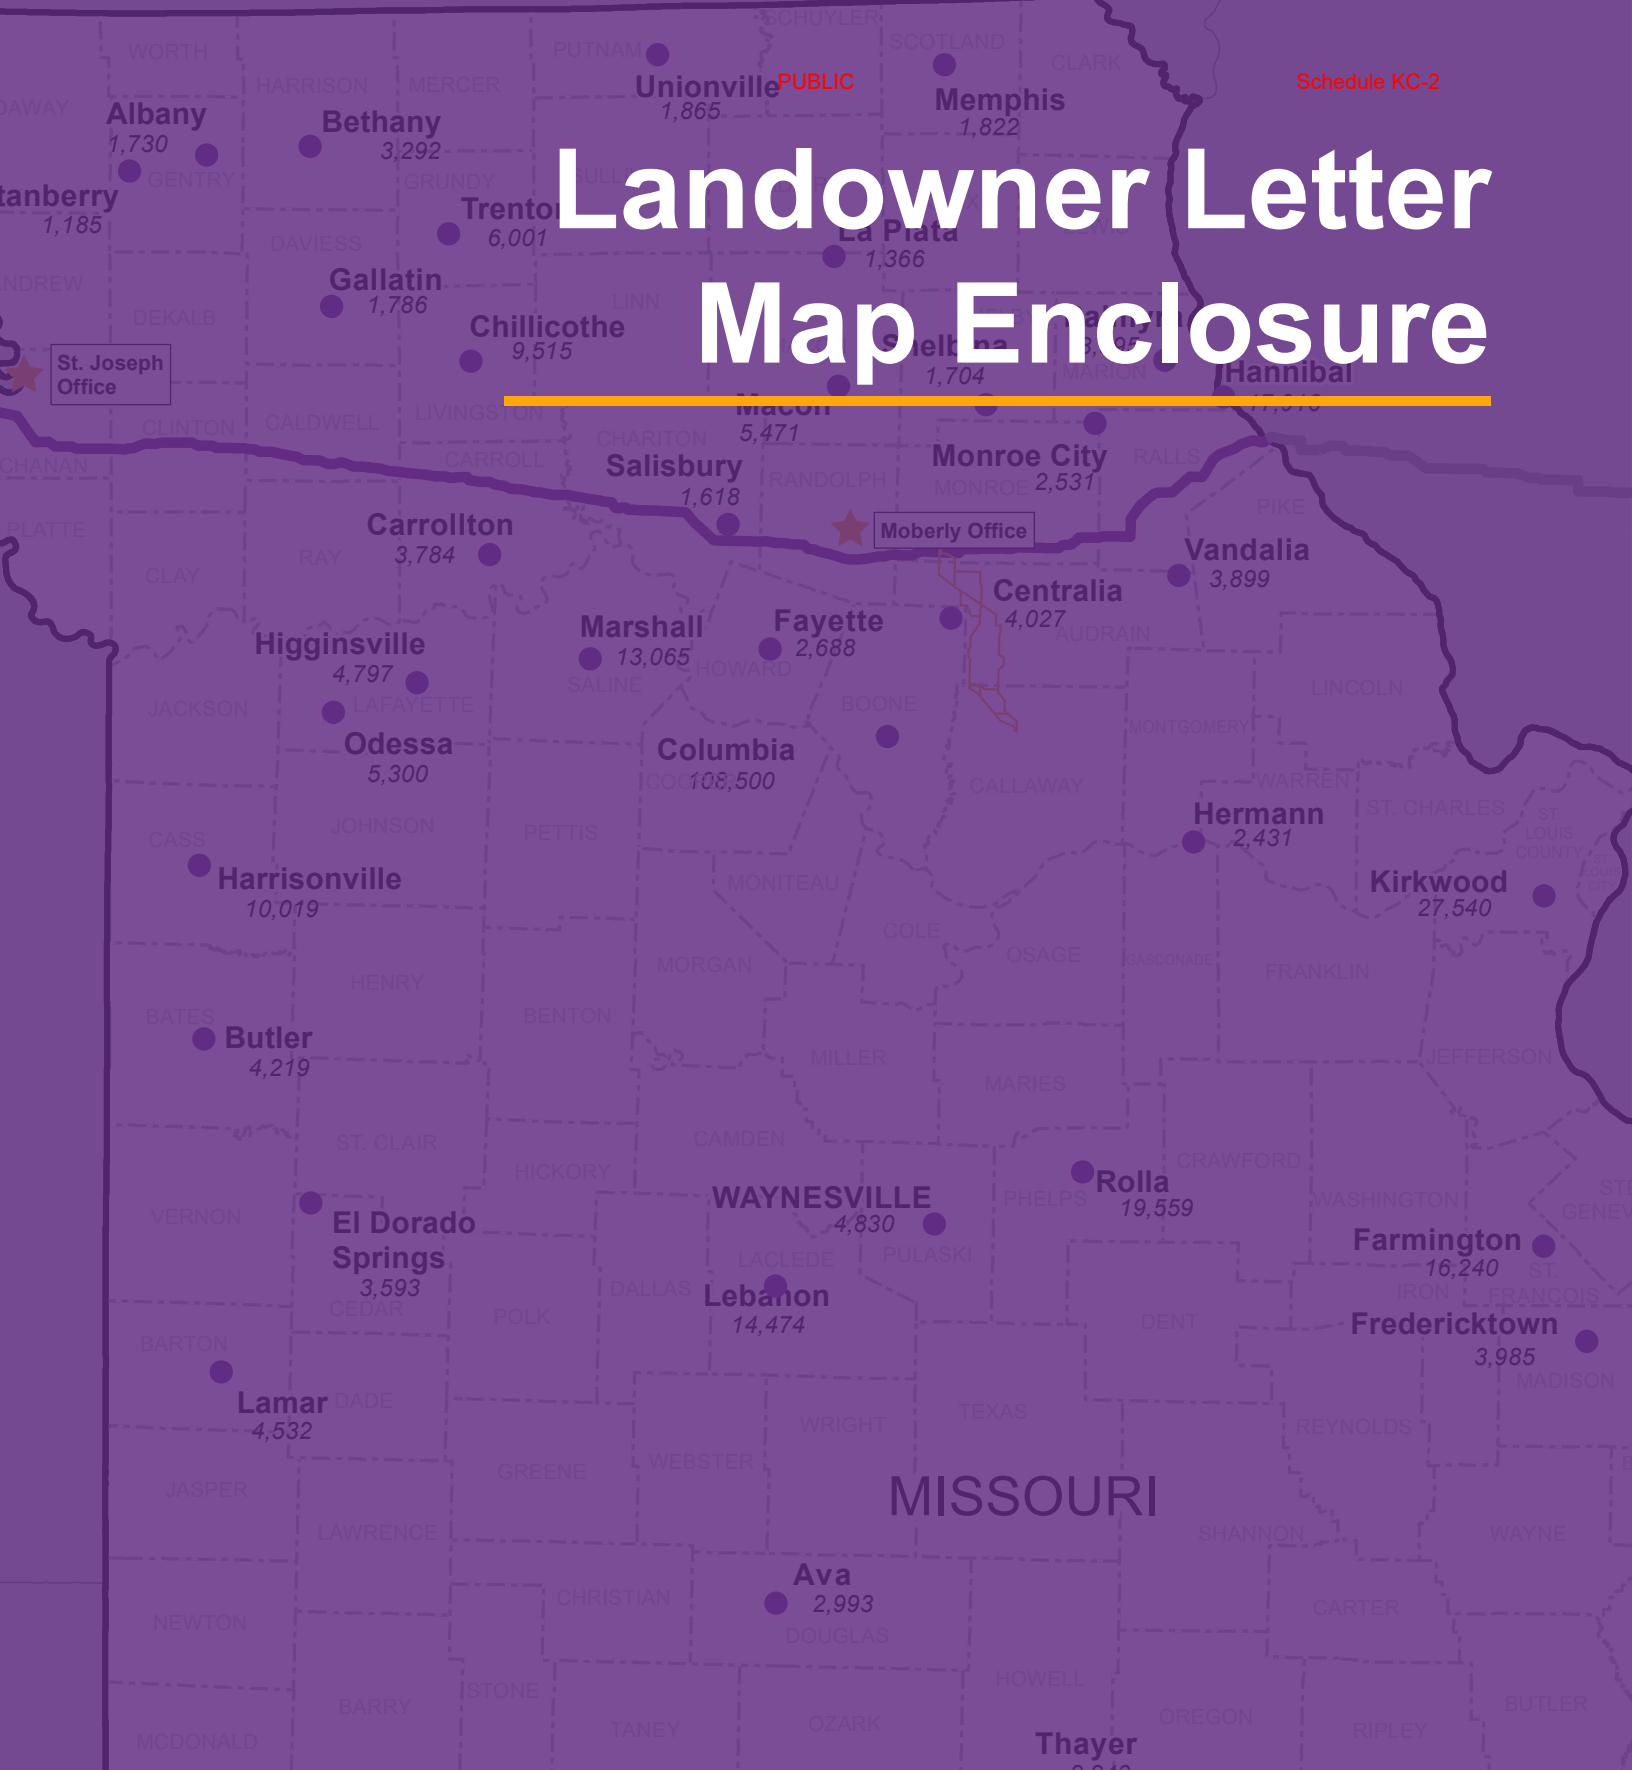

Sincerely,

The Tiger Connector Project Team

Public Meeting Boards

Welcome to the Grain Belt Express Tiger Connector Public Meeting

The purpose of this meeting is to:

Introduce the project to the public.

Present the route options being considered and **receive landowner input**.

Receive your comments on the project and **answer your questions**.

Tiger Connector

Project Description

The Grain Belt Express Tiger Connector is an approximately 40-mile-long electric transmission line that will connect existing power infrastructure – the McCredie Substation, located in Callaway County, Missouri – to new power delivery. This new power delivery is provided by the approved Grain Belt Express transmission line to be built in North Missouri. The proposed point of interconnection is in Monroe County, Missouri.

Tiger Connector

Economic Progress and Community Benefit in Missouri

The Grain Belt Express Tiger Connector will enable delivery of these benefits to more Missouri homes and businesses, by connecting the largest power grids that serve Missouri consumers.

The benefits of this project include:

An easement package that provides **landowner protections** and **fair compensation**.

\$4.4 billion in forecasted energy cost savings and additional reliability benefits for Missouri.

New local jobs, spending, and **economic activity** during construction, and **new community tax revenue** for the life of the project.

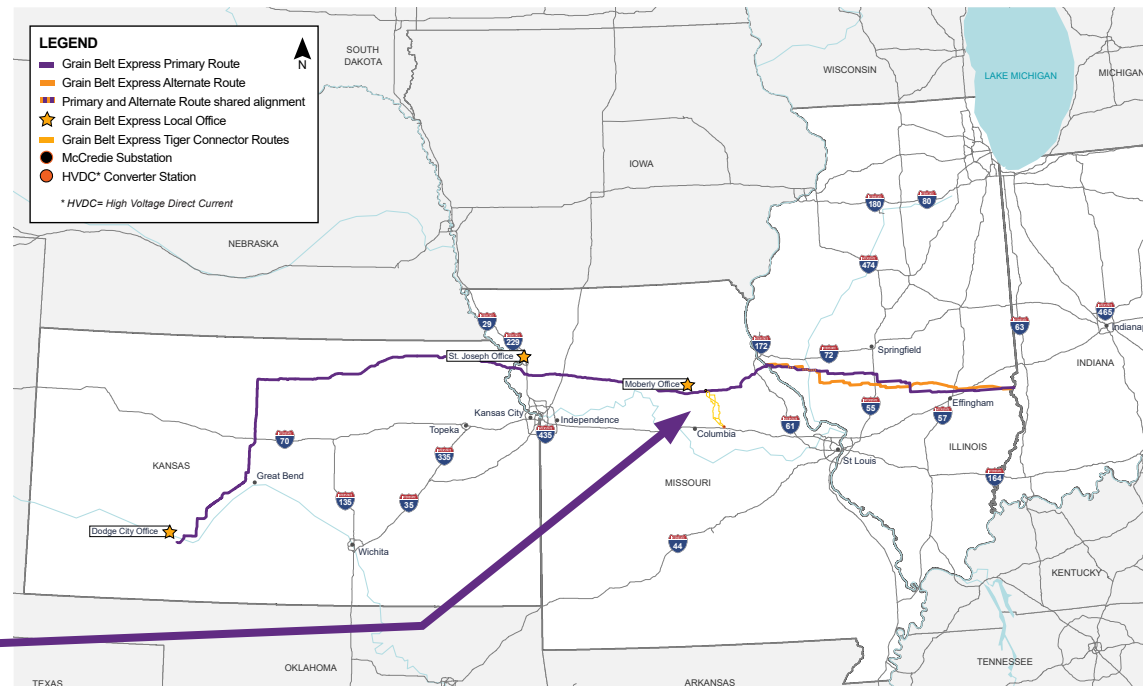

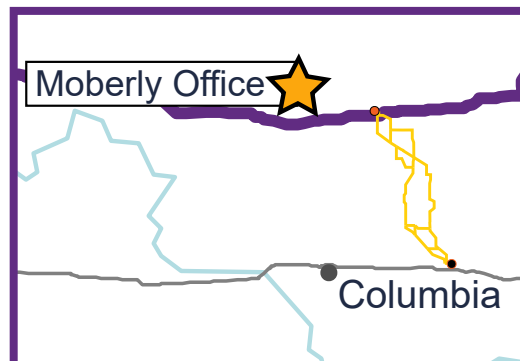

100% clean, domestic power to strengthen America's energy independence – the equivalent of two new nuclear power plants worth of homegrown energy available to Missouri consumers.

Tiger Connector

Grain Belt Express Project Background

- In 2020, Invenergy Transmission became the owner of the Grain Belt Express.
- Grain Belt Express is an electric transmission line that will connect four states across 800 miles, with 50% of power delivery available to Missouri.
- Grain Belt Express is a needed source of more affordable, reliable clean energy.
- Grain Belt Express will provide energy reliability and access for a new era of growth by providing:
 - Thousands of jobs
 - Local investments
 - Energy savings
 - Carbon reductions
 - Greater energy reliability

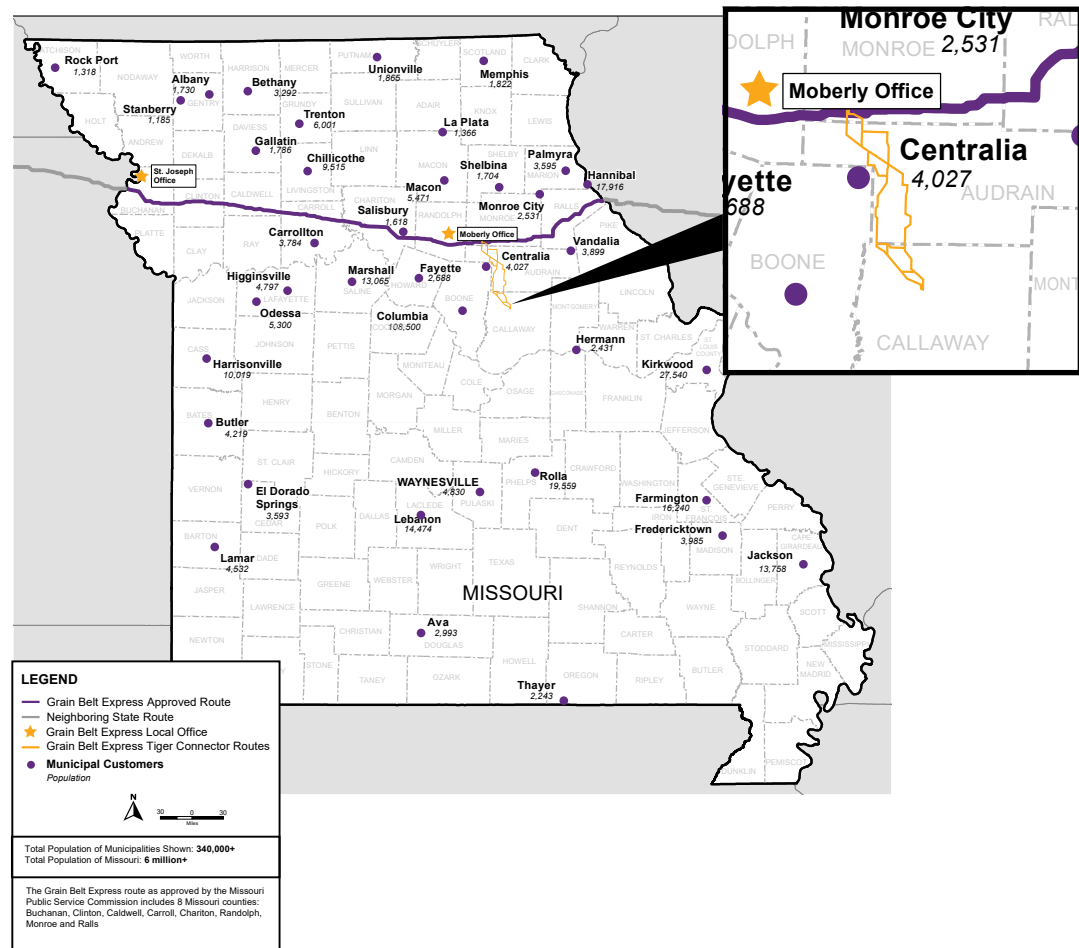

Tiger Connector

Existing Missouri Municipal Customers

The Grain Belt Express has an existing agreement in place with **39 municipal utilities across Missouri**. That agreement will provide more than **\$12.8 million in estimated annual savings** for citizen-led, non-profit hometown utilities and the customers they serve - enhancing the competitiveness of rural communities throughout the state.

Grain Belt Express will maintain our planned service to those 39 municipal utilities. With the Tiger Connector, Grain Belt Express will be able to serve additional power to rural areas, small towns, and cities across Missouri.

Tiger Connector

A Project by Invenergy Transmission

- Invenergy Transmission is the owner and developer of Grain Belt Express and an affiliate of Invenergy.
- Invenergy is a U.S. company and has successfully developed over 190 large scale energy projects.
- Invenergy knows how to build the right way and has relationships with over 12,000 landowners, more than 80 percent of whom are farmers and ranchers.
- 10% of Invenergy's workforce are U.S. military veterans.

Tiger Connector

Routing Process

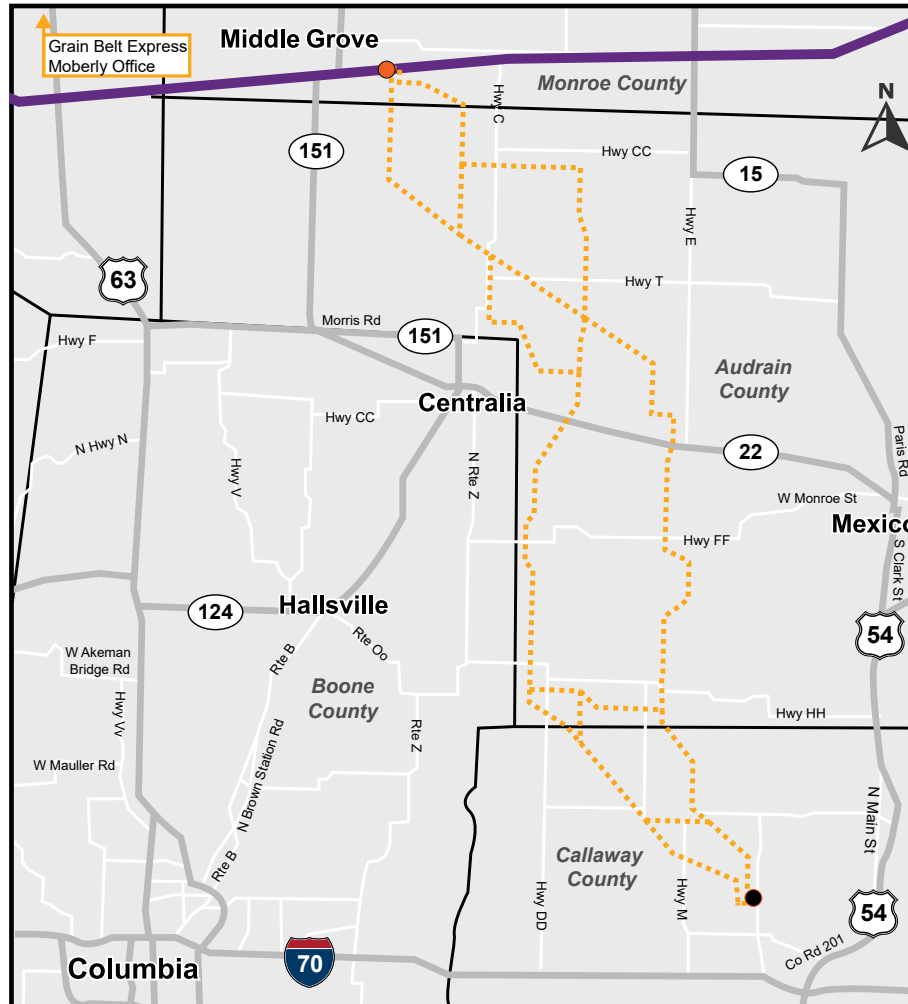

- A site has been selected and secured for a converter station in Monroe County.
- Power is transmitted across the Grain Belt Express using direct current (DC) and will need to be converted to alternating current (AC) at a converter station.
- Currently, there are a number of potential paths that Invenergy Transmission is evaluating.
There are no preferred paths to date.
- Landowner input provides unique information that will help us make decisions as we determine our proposed route for the Missouri Public Service Commission.
- All potential routes are evaluated by considering environmental, engineering, and social criteria.
All landowner input will be considered throughout the routing process.

ENVIRONMENTAL	ENGINEERING	SOCIAL
 Conservation Areas	 Airports	 Agricultural Operations
 Floodplains	 Highways	 Homes/Residences
 Historical/ Archeological Sites	 Cost	 Places of Worship
 Wooded Areas	 Constructability	 Schools
