

Schedule RS-1

****Public****

SUMMARY

Structured finance deal closer with nearly \$2.2 billion in capital raised for renewable energy, FSRU, and thermal projects. Responsible for complex deal structuring and successful execution, with direct input or influence over all major aspects of project development and closing, including debt and equity financing, contracts negotiation and regulatory compliance. Strong negotiator and deal closer.

PROFESSIONAL EXPERIENCE

Invenergy **Chicago, IL**
Vice President, Finance and Capital Markets *2014-present*
Director, Finance

- Oversee analysis of project economics for utility scale renewable, transmission, and thermal projects. Provide guidance to origination team on strategic opportunities and bid tenders. Negotiate commercial and financing agreements, JV arrangements, power purchase agreements, SPAs, and membership interest purchase agreements. Over \$1B+ in construction, tax equity and preferred equity financing, utilizing a range of structures to maximize project value and recycle capital.
- Closed \$650M debt financing for first LNG-to-power project in El Salvador. Mandated 4-bank club of multilateral and export credit lenders (DFC, IFC, IDB, and Finnvera). Managed construction funds through COVID impacts. Identified and addressed working capital challenges arising from LNG market volatility and delays in revenue. Awarded 2020 Infrastructure Financing Deal of the Year-Central America by *Latin Finance Magazine*.
- Closed \$125M financing for conversion of LNG carrier to a floating storage and regasification unit (FSRU.) Addressed complex project-on-project risks, intercreditor issues, and security package across 7 jurisdictions.

Sun Edison, LLC **Washington, DC/San Francisco, CA**
Director, Project Finance and Corporate Development *2011-2014*
Senior Manager, Project Finance and Corporate Development *2008-2011*

- Closed over 150 solar projects with leading tax equity and debt players across the US and Spain. Used range of structures from sale leaseback to innovative levered lease pass-through and syndicated structures.
- Raised 3 funds of distributed generation assets and streamlined financing process by standardizing documentation and credit analysis. Maximized project value by driving favorable terms on investor yield and lease terms.
- Managed various project stakeholders such as utilities, retail and public sector customers, landlords, independent engineers, appraisers, and investors to drive efficient diligence process and meet closing deadlines.

Sumitomo Mitsui Banking Corporation **New York, NY**
Assistant Vice President, Structured Finance Group-Emerging Markets *2007-2008*

- Provided structured financing solutions to US and Canadian clients operating in international markets. Portfolio included hydropower, oil and gas, offshore drilling, LNG, and mining deals in Mexico, Brazil, and Saudi Arabia.
- Conducted underwriting analysis on sponsor credit, technology, offtake quality, and market uncertainty. Recommended commitment levels based on above to secure loan approvals from internal credit committees.

Delphos International **Washington, DC**
Associate *2003-2007*

- Advised on multilateral financing strategies for sponsors in housing and natural resources sectors.
- Completed USTDA feasibility studies for a biomass facility in Iowa and petrochemical (urea) plant in Egypt. Created three-phase financial model to estimate capital requirements, financing structure, and sponsor returns.
- Secured \$10M loan for middle income condo in Costa Rica. Prepared model and closing documentation.
