SECTION 14.0 - DESCRIPTION OF LOCAL EXCHANGE SERVICES (continued)

14.7 Directory Assistance and Listing Services

14.7.1 Directory Assistance

Provides for identification of telephone directory numbers, via an operator or automated platform.

14.7.2 Directory Listing Services

For each Customer of Company-provided exchange service, the Company shall list the Customer's main billing telephone number in the directory published by the dominant local exchange carrier in the area at no additional charge. At a Customer's option, the Company will arrange for additional listings for an additional charge.

A standard listing includes a name, designation, address and telephone number of the Customer. It appears in the white pages of the telephone directory and in the Company's directory assistance records. Only information necessary to identify the Customer is included in these listings. The Company may use abbreviations in listings. The Company may reject a listing it judges to be objectionable. A name made up by adding a term such as company, shop, agency, works, etc. to the name of a commodity or service will not be accepted as a listing unless the Customer is legally doing business under that name.

A name may be repeated in the white pages only when only when a different address or telephone number is used.

SECTION 14.0 - DESCRIPTION OF LOCAL EXCHANGE SERVICES (continued)**14.8 Operator Services**

Provides for live or automated operator treatment when a Customer dials "0." Operator services can be used to help the Customer route or bill a call. Billing options include, but are not limited to, bill to originating telephone number, calling card, collect or to a third party.

14.8.1 Operator Service Call Types

- A. Customer Dialed Calling/Credit Card Call** charge applies in addition to local usage charges for station to station calls billed to an authorized calling card or commercial credit card. The Customer must dial the destination telephone number and card number where the capability exists for the Customer to do so.
- B. Operator Dialed Calling/Credit Card Call** charge applies in addition to local usage charges for station to station calls billed to an authorized calling card or commercial credit card and the operator dials the destination telephone number at the request of the Customer.
- C. Operator Station** charges apply in addition to local usage charges for non-person-to-person calls placed using the assistance of a Company operator and billed to the originating line, collect, to a third party, by deposit of coins in pay telephones, or via some method other than a calling card or commercial credit card.
- D. Person-to-Person** rates apply in addition to local usage charges for calls placed with the assistance of a Company operator to a particular party at the destination number. This charge applies regardless of billing method, including but not limited to billing to the originating line, a calling card, commercial credit card, collect, by deposit of coins in pay telephones, or to a third party. Charges do not apply unless the specified party or an acceptable substitute is available.

SECTION 14.0 - DESCRIPTION OF LOCAL EXCHANGE SERVICES (continued)**14.9 Presubscription Services**

Carrier presubscription is a procedure where a Customer designates the carrier which the Customer wants to use for intraLATA and interLATA toll calls, where available. Such calls are automatically directed to the designated carrier without the need to dial carrier access codes or additional dialing to direct the call to the designated carrier. Presubscription does not prevent a Customer who has presubscribed to an intraLATA or interLATA toll carrier from using carrier access codes or additional dialing to direct calls to an alternative long distance carrier on per-call basis.

14.9.1 Presubscription Options - Customers may select the same carrier or separate carriers for intraLATA and interLATA long distance. The following options for long distance presubscription are offered where available. Availability may be limited based on the capabilities of the Customer's serving central office:

Option A: Customer selects the Company as the presubscribed carrier for IntraLATA and InterLATA toll calls subject to presubscription.

Option B: Customer may select the Company as the presubscribed carrier for IntraLATA calls subject to presubscription and some other carrier as the presubscribed carrier for interLATA toll calls subject to presubscription.

Option C: Customer may select a carrier other than the Company for intraLATA toll calls subject to presubscription and the Company for interLATA toll calls subject to presubscription.

Option D: Customer may select a carrier other than the Company for both intraLATA and interLATA toll calls subject to presubscription.

Option E: Customer may select two different carriers, neither being the Company for intraLATA and interLATA toll calls. One carrier to be the Customers' primary intraLATA interexchange carrier. The other carrier to be the Customer's primary interLATA interexchange carrier.

Option F: Customer may select no presubscribed carrier for intraLATA toll calls, which will require the Customer to dial a carrier access code to route all calls to the carrier of choice for each call.

SECTION 14.0 - DESCRIPTION OF LOCAL EXCHANGE SERVICES (continued)

14.9 Presubscription Services (continued)

14.9.2 Rules and Regulations

Customers will retain their primary interexchange carrier until they request that their dialing arrangements be changed.

Customers may select either Options A, B, C, D or E for intraLATA presubscription. Option F allows the Customer to decline to choose an intraLATA carrier.

Customers may change their selected option or presubscribed toll carrier at any time subject to charges specified in Section 15.1.

14.9.3 Presubscription Procedures

A new Customer will be asked to select intraLATA and interLATA toll carriers at the time the Customer places an order for local exchange service. The Company will process the Customer's order for service. All new Customer's initial requests for intraLATA toll service presubscription will be provided free of charge.

If a new Customer is unable to select at the time it places an order for local exchange service, the Company will direct the Customer to the local telephone directory to select a carrier. Until the Customer informs the Company of its choice of primary toll carrier, the Customer will not have access to long distance services on a presubscribed basis, and will be required to dial a carrier access code to route all toll calls.

14.10 Miscellaneous Services

14.10.1 900/976 Restrict

This service provides the option of blocking, or subsequent unblocking, all 900 and 976 calls on a per line basis. The Company will provide for per-line blocking where the Company's switching facilities permit.

14.10.2 Hunting Line Service

This service is used to establish hunting arrangements between two or more of a customer's local exchange service access lines. Customers may choose from one of the following hunt group arrangements:

Series Hunting - The hunt for an idle access line starts with the called access line in a prearranged hunt group and ends with the last access line in the hunt group, completing the call to the first idle access line encountered. Unless the first access line in the hunt group is called, only a portion of the access line group is hunted.

Circle Hunting - Permits a complete hunt over all the access lines in a prearranged access line hunt group. If no idle access line is encountered the hunting will continue until it reaches the access line that was originally called.

Preferential Hunting - Individual access lines in an access line hunt group may have any associated preferential hunt list. This hunt list specifies a hunting sequence over a predetermined subset or preferential arrangement of up to 18 access lines before proceeding to hunt through the remaining access line hunt group.

15.2 Maintenance Visit Charges

Maintenance visit charges apply when the Company dispatches personnel to a Customer's premises to perform work necessary for installing new service, making changes in service or resolving troubles reported by the Customer when the trouble is found to be caused by the Customer's facilities.

Maintenance visit charges will be credited to the Customer's account in the event trouble is not found in the Company facilities, but the trouble is later determined to be in those facilities.

The time period for which the maintenance visit charges is applied will commence when Company personnel are dispatched at the Customer premises and end when work is completed. The rates for maintenance of service vary by time per Customer request.

In addition to the maintenance of service charge, the customer shall be responsible for the payment of all time and materials charges incurred during the repair visit.

SECTION 16.0 - LOCAL SERVICES PRICE LIST

16.1 Standard Local Service

In addition to the charges listed in Section 15 of this tariff the Customer is responsible for nonrecurring and monthly recurring charges.

Recurring charges for standard local service are billed monthly in advance. Nonrecurring charges for installation or rearrangement of service are billed on the next month's bill immediately following work performed by the Company. The applicable local exchange is described in Section 13 of this tariff.

16.3 Direct Inward Dialing (DID) Service

DID permits calls incoming to a PBX system or other CPE to be routed to a specific station without the assistance of an attendant. DID calls are routed directly to the station associated with the called number. DID service as offered by the Company provides the necessary trunks, telephone numbers, and out-pulsing of digits to enable DID service at a Customer's location. DID service requires special PBX software and hardware not provided by the Company. Such hardware and software is the Customer's responsibility.

The following charges apply to Customers subscribing to DID service provided by the Company. These charges are in addition to recurring and nonrecurring charges for PBX Trunks as shown in Section 16.2. Each arrangement provides two-way transmission for a capacity on 24 line termination.

SECTION 16.0 - LOCAL SERVICES PRICE LIST (continued)

16.5 ISDN SERVICE

Basic Rate Interface

Single Line ISDN Service Basic Rate Access is offers flat rated or measured local calling. The Customer may have only one type of Basic Rate Access on an account. The Company will provide flat and measured Basic Rate Access at the same address, for the same Customer; however, the flat and measured services must reside on separate accounts.

Usage charges apply to all outgoing calls when using the measured without usage allowance option.

Following are the monthly rates and nonrecurring charges for Single Line ISDN Service. These rates and charges apply in addition to applicable rates and charges for other services provided by the Company.

Single Line ISDN Service Basic Rate access with a usage allowance includes up to either 600 minutes or 7200 minutes per month of aggregate usage for circuit-switched voice and circuit-switched data. Usage is aggregated at the account level rather than the summary bill level. Additional usage in excess of the usage allowance in a monthly billing period, will incur usage charges.

When BRI is arranged for circuit-switched voice service, Optional Calling Features offered in Section 16.4 of this tariff are available, where such features are compatible with the ISDN service.
