RE: Tariff Tracking No. YG-2007-0296;  
Case No. GR-2006-0288

Dear Secretary:

On October 31, 2006 the Company filed P.S.C. MO. No. 5 Consolidated, Two Hundred and Ninth Revised Sheet No. 29 to reflect the Company's scheduled November Purchased Gas Adjustment ("PGA"). However, today the Company discovered that the PGA rates it proposed in such filing were based on natural gas prices that were subsequently revised by the publication that the Company had used as its source. To rectify this matter the Company has recalculated its proposed PGA rates using the correct prices and requests that the attached tariff sheet be substituted for the tariff sheet filed on October 31. As a result of this correction, the Company's proposed PGA rates will decrease by another \$.023 per therm in addition to the \$.101 per therm reduction already reflected in the October 31 filing for a total reduction of approximately \$.124 per therm. The revised proposed natural gas PGA rates will decrease the natural gas bill of the typical residential heating customer by approximately 10% compared to existing rates. Compared to the same time last year, the rate paid by a typical residential customer is down by approximately 16%.

The Staff of the Commission is aware of the requested substitution.

Sincerely,  
  
Kenneth J. Neises  
Executive Vice President  
Energy & Administrative Services
