STAFF RECOMMENDATION

COMES NOW the Staff of the Missouri Public Service Commission (Staff) and for its recommendation respectfully states:

1. In the attached Memorandum, labeled Appendix A, Staff recommends that the Missouri Public Service Commission (Commission) grant AT&T Communications of the Southwest, Inc. d/b/a ConQuest (Applicant) a certificate of service authority to provide interexchange telecommunications services. certain statutes if the Commission determines that waiver is consistent with the purposes of Chapter 392. Sections 392.185, 392.361.5 and 392.420.

4. Staff has no objection to Applicant's proposed tariff taking effect on October 31, 2006.

Date: October 25, 2006 Filing Deadline: November 1, 2006

The Telecommunications Department Staff (Staff) recommends the applicant be granted the following certificate(s), as indicated below, to be effective on the same date the tariff becomes effective:

certificate to provide interexchange telecommunications services.
 certificate to provide local exchange telecommunications services.*

*local exchange authority should be restricted to dedicated, private line services.

Staff recommends the applicant and its services receive competitive classification. Staff further recommends a Commission order granting certification state that pursuant to Section 392.410 RSMo, unless exercised within a period of one year from the issuance thereof, authority conferred by a certificate of service authority shall be null and void. In addition, Staff recommends approval of the waivers listed in the Notice.

Granting a certificate to provide basic local exchange telecommunications services should be based on the following conditions:

1. The applicant's originating and terminating access rates will be no greater than the lowest Commission approved corresponding access rates in effect for each ILEC within whose service area the applicant seeks authority to provide service, unless authorized by the Commission pursuant to Sections 392.220 and 392.230 RSMo.

2. The certificate and service classification for switched access service is conditioned on the continued applicability of Section 392.200 RSMo, and the requirement that any increases in switched access services rates above the maximum switched access service rates set forth herein shall be made pursuant to Sections 392.220 and 392.230 RSMo, and not Sections 392.500 and 392.510 RSMo.
3. If the directly competing ILEC, in whose service area the applicant is operating, decreases its originating and/or terminating access service rates, the applicant shall file an appropriate tariff amendment to reduce its originating and/or terminating access rates in the directly competing ILEC's service area within 30 days of the directly competing ILEC's reduction of its originating and/or terminating access rates in order to maintain the cap.

No objection to P.S.C. Mo. No. 1 taking effect November 13, 2006
