

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the Matter of the Verified Application and)
Petition of Laclede Gas Company to Change its) Case No. GO-2012-01_____
Infrastructure System Replacement Surcharge)

**VERIFIED APPLICATION AND PETITION
OF LACLEDE GAS COMPANY TO CHANGE ITS
INFRASTRUCTURE SYSTEM REPLACEMENT SURCHARGE**

COMES NOW Laclede Gas Company ("Laclede" or "Company"), pursuant to Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri (2009), and 4 CSR 240-2.060, 2.080, and 3.265 of the Rules of the Missouri Public Service Commission ("Commission"), and for its Verified Application and Petition to Change its Infrastructure System Replacement Surcharge, respectfully states as follows:

I. BACKGROUND

1. Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri authorize eligible gas corporations to recover certain infrastructure replacement costs by establishing and updating an infrastructure system replacement surcharge ("ISRS"). Laclede's current ISRS was established effective January 7, 2011 by Commission Order in Case No. GO-2011-0058, covering ISRS eligible investments made in natural gas utility plant projects through November 30, 2010.

2. The Company's ISRS was last updated effective July 8, 2011 for ISRS costs incurred through May 31, 2011. Since Laclede's ISRS was last changed, the Company has continued to incur ISRS costs. For the period from June 1, 2011 through September 30, 2011, those costs result in additional annualized ISRS revenues that exceed the \$1 million threshold necessary to make an ISRS filing. Accordingly, Laclede submits this Application and Petition to change its ISRS to reflect these additional costs.

II. THE APPLICANT

3. Laclede is a public utility and gas corporation incorporated under the laws of the State of Missouri, with its principal office located at 720 Olive Street, St. Louis, Missouri 63101. A Certificate of Good Standing evidencing Laclede's standing to do business in Missouri was submitted in Case No. GF-2009-0450 and is incorporated by reference herein for all purposes. The information in such Certificate is current and correct.

4. Laclede is engaged in the business of distributing and transporting natural gas to customers in the City of St. Louis and the Counties of St. Louis, St. Charles, Crawford, Jefferson, Franklin, Iron, St. Genevieve, St. Francois, Madison, and Butler in Eastern Missouri, as a gas corporation subject to the jurisdiction of the Commission.

5. Communications in regard to this Application should be addressed to:

Rick Zucker
Assistant General Counsel
Laclede Gas Company
720 Olive Street, Room 1516
St. Louis, MO 63101
(314) 342-0533

Glenn W. Buck
Manager, Financial Services
Laclede Gas Company
720 Olive Street, Room 1305
St. Louis, Missouri 63101
(314) 342-0767

6. Other than cases that have been docketed at the Commission, Laclede has no pending actions or final unsatisfied judgments or decisions against it from any state or federal agency or court which involve customer service or rates.

7. Laclede is current on its annual report and assessment fee obligations to the Commission, and no such report or assessment fee is overdue.

III. THE ISRS REQUEST

8. With this application, Laclede requests an adjustment to its ISRS rate schedule to reflect costs incurred in connection with ISRS-eligible infrastructure system replacements made during the period beginning June 1, 2011 through September 30, 2011. Consistent with ISRS changes approved in Laclede's previous ISRS cases, this application also includes pro forma ISRS costs updated through November 30, 2011.

9. In accordance with the provisions of Sections 393.1009-1015 and 4 CSR 240-3.265, the revised ISRS rate schedule reflects the appropriate pre-tax ISRS revenues necessary to produce net operating income equal to Laclede's weighted cost of capital multiplied by the net original cost of the requested infrastructure replacements during this period that are eligible for the ISRS, including recognition of accumulated deferred income taxes and accumulated depreciation associated with eligible infrastructure system replacements that were included in Laclede's currently effective ISRS. Laclede also seeks to recover all state, federal and local income or excise taxes applicable to such ISRS income, and to recover all other ISRS costs such as depreciation expense and property taxes due within 12 months of this filing.

A. Eligibility of Costs

10. The infrastructure system replacements for which Laclede seeks ISRS recognition are set forth on Appendix A, which is attached hereto and made a part hereof for all purposes. The infrastructure system replacements listed on Appendix A are eligible gas utility plant projects in that they are either: a) mains, valves, service lines,

regulator stations, vaults, and other pipeline system components installed to comply with state or federal safety requirements as replacements for existing facilities that have worn out or are in deteriorated condition; or b) main relining projects, service line insertion projects, joint encapsulation projects, and other similar projects extending the useful life, or enhancing the integrity of pipeline system components undertaken to comply with state or federal safety requirements; or c) unreimbursed infrastructure facility relocations due to the construction or improvement of a highway, road, street, public way or other public work required by or on behalf of the United States, the State of Missouri, a political subdivision of the State of Missouri, or another entity having the power of eminent domain.

11. In addition to meeting the foregoing criteria, the infrastructure system replacements listed on Appendix A are also eligible for ISRS treatment because they: a) did not increase revenues by directly connecting to new customers; b) are currently in service and used and useful; c) were not included in Laclede's rate base in its most recently completed general rate case, or in a previous ISRS filing; and, d) replaced and/or extended the useful life of existing infrastructure.

12. Finally, the infrastructure system replacements listed on Appendix A are eligible for ISRS treatment because Laclede's last general rate case proceeding was decided by Commission Orders issued within the past three years, that is, on August 18, 2010, effective September 1, 2010, in Case No. GR-2010-0171 (the "Rate Case").

B. Rate Schedules, Calculations and Supporting Documentation

13. Attached hereto as Appendix B is the rate schedule, with supporting documents, proposed by Laclede in order to revise the ISRS to reflect the additional ISRS

eligible investments made by Laclede that were not included in its previous ISRS filing. This proposed rate schedule, on an annualized basis, will produce additional ISRS revenues of at least one million dollars, but not in excess of ten percent of Laclede's base revenue level as approved by the Commission in its most recently completed general rate proceeding.

14. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes current local, state and federal income tax rates through a combined income tax rate conversion factor of 1.626737.

15. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes the average regulatory capital structure consistent with Attachment 4 to the Unanimous Stipulation and Agreement (the "Rate Case Stipulation") that was approved in the Rate Case, and reflects an overall rate of return of 8.4295%.

16. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes a weighted average cost of debt of 2.9295%, consistent with Attachment 4 of the Rate Case Stipulation.

17. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes a cost of common equity of 10.00%, consistent with Attachment 4 of the Rate Case Stipulation.

18. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes depreciation rates currently applicable to the eligible infrastructure system replacements, as approved by the Commission for Laclede in the Rate Case.

19. In determining the appropriate monthly ISRS charge, the proposed rate schedule is based on a reasonable estimate of billing units in the period in which the

charge will be in effect, derived by dividing the appropriate pre-tax revenues, as calculated above, by the average number of customers in the most recent fiscal year ended September 30, 2011, and then further dividing this quotient by twelve. (*See* Appendix B, p. 12). Consistent with the methodology used in previous ISRS filings, the monthly ISRS charge is apportioned between customer classes in proportion to the customer charges applicable to those classes.

20. ISRS information on the Company's website, along with currently effective call center instructions pertaining to the ISRS, are attached hereto as Appendix C, and are incorporated herein by reference. Laclede will update these instructions as necessary to conform with the final order issued in this case.

21. In the past few Laclede rate cases, including Case No. GR-2010-0171, the Commission approved the parties' agreement to implement the Company's ISRS applications "as soon as reasonably possible," in exchange for Laclede's commitment to reduce the ISRS by a certain amount. Based on the fact that ISRS filings have become largely routine in nature, Laclede believes that providing a window of approximately 60 days for implementation is more than sufficient to comply with this condition. Accordingly, rather than provide a 30 day tariff effective date, Laclede has scheduled its tariff filed today to become effective on Monday, January 9, 2012, which is more than 60 days from the date of this Application. Laclede requests that, rather than further suspend the tariff at this time, the Commission and the parties work toward this reasonable implementation date.

WHEREFORE, Laclede Gas Company respectfully requests that, pursuant to 393.1015.2(3) RSMo and Commission Rule 3.265(12), the Commission issue an Order,

effective on January 9, 2012, or as soon thereafter as is reasonably possible, in accordance with the Stipulation and Agreement approved in Case No. GR-2010-0171, approving a change to Laclede's ISRS rate schedules to provide for the recovery of the eligible infrastructure system replacement investments made by Laclede from June 1, 2011, through November 30, 2011, and (iii) grant such other relief as may be necessary and appropriate to accomplish the purposes of Sections 393.1009 through 393.1015.

Respectfully submitted,

/s/ Rick E. Zucker

Laclede Gas Company

For

Refer to Sheet No. 1

SCHEDULE OF RATES

INFRASTRUCTURE SYSTEM REPLACEMENT SURCHARGE (“ISRS”)

Description: The ISRS is designed to recover the costs associated with the Company's eligible infrastructure replacements in accordance with the provisions of Sections 393.1009 to 393.1015, RSMo.

Applicability: In addition to the other charges provided for in the Company's tariff, a monthly ISRS shall be added to each customer's bill for service rendered on and after the effective date of the JSRS.

Schedule of Surcharges: The amount of the ISRS by rate schedule is as follows:

Per Bill Per Month

| | |
|--|---------|
| Residential General Service (RG) | \$.84 |
| Residential Seasonal Air Conditioning Service (RA) | \$.84 |
| Commercial & Industrial General Service-Class I (C1) | \$ 1.10 |
| Commercial & Industrial General Service-Class II (C2) | \$ 1.75 |
| Commercial & Industrial General Service-Class III (C3) | \$ 3.50 |
| Commercial & Industrial Seasonal Service-Class I | \$ 1.10 |
| Commercial & Industrial Seasonal Service-Class II | \$ 1.75 |
| Commercial & Industrial Seasonal Service-Class III | \$ 3.50 |
| Large Volume Service (LV) | \$39.09 |
| Interruptible Service (IN) | \$34.75 |
| General L.P. Gas Service (LP) | \$.73 |
| Unmetered Gas Light Service (SL) | \$.26 |
| Vehicular Fuel Rate (VF) | \$.99 |
| Large Volume Transportation and Sales Service (LVTSS) | \$92.47 |

Summer 2011

TO: All Customer Relations Employees

RE: Infrastructure System Replacement Surcharge

As a result of the Company's 2010 rate case, cost recovery for the facilities that were part of the Infrastructure System Replacement Surcharge (ISRS) were incorporated into the Company's overall rates. This includes costs for plant in service as of March 31, 2010. Effective September 1, 2010, the monthly ISRS was reset to \$-0-.

Effective January 5, 2011, the Company received approval to re-establish an ISRS charge for ISRS costs incurred between April 1 and November 30, 2010. Effective **July 8, 2011**, the Company received approval to change its ISRS charge for ISRS costs incurred between December 1, 2010 and May 31, 2011. These costs for natural gas customers' pipeline replacements and/or relocations were not included in Laclede's base rates set in the 2010 rate case. **The new ISRS rate is \$.59 per month for Laclede's residential customers and ranges from \$.77 to \$57.22 for Commercial and Industrial customers.**

The ISRS covers a portion of the expenses that the Company must incur to maintain and upgrade its system and to relocate facilities in connection with local, state, and federal public improvement projects and safety requirements.

The ISRS covers the costs for:

- Moving or upgrading facilities in connection with mandated safety projects.
- Certain public improvement projects such as street or highway widening.
 - An example would be the Page Avenue extension in West St. Louis that connected I-270 with Highway 94 in St. Charles.

The ISRS does NOT apply to:

- Costs for privately funded projects like the new Busch Stadium, where Laclede was reimbursed by the Cardinals for work done. None of these types of costs are included in the ISRS or are being recovered from Laclede's customers.
- Costs incurred to build infrastructure that directly connects to new customers who will be billed for service.

ISRS charges are prorated upon implementation. The exact amount of the ISRS charge can be found under the "DETAIL BILL CALCULATION" screen under NBIL.

When a new ISRS is established, the first ISRS bill for each customer will contain a bill message on the front of the bill known as the initial notice. Such a bill message does not appear when the

ISRS amount merely changes. However, please note that an abbreviated version of this message is also permanently on the back of the bill under Definitions. Once each year, bills will also contain a different ISRS notice, referred to as the annual ISRS notice. (Please see Attachment 1 for initial bill message and annual ISRS Notice).

Attachment 2 is a sample residential bill showing how the ISRS charge is displayed. Attachment 3 is the tariff sheet showing all of the monthly ISRS rates for the various customer classes.

Customers who call with ISRS questions during the first month that ISRS bills are rendered may be directed to the bill message on the front of the bill. After the first month, the ISRS is still defined on the back of the bill. If customers seek to discuss the ISRS charge in greater detail, please emphasize the following:

- The ISRS covers a portion of the expenses that the Company must incur to maintain and upgrade its system and to relocate facilities in connection with local, state, and federal public improvement projects and safety requirements.
- ISRS is authorized by Missouri law, which allows gas utilities like Laclede to adjust their rates up to two times per year to recover these mandated costs.
- None of the mandated costs and projects covered by ISRS produce any new revenue for the Company. Any projects for which Laclede is separately reimbursed are not included in the ISRS.
- The financial impact of the ISRS is very modest. It is less for residential customers than for larger commercial and industrial customers. Since Laclede first established an ISRS in 2004, the residential ISRS has always been less than \$2 per month.

M. Shillato

ATTACHMENT I**INITIAL NOTICE**

ISRS

Each year, Laclede spends tens of millions of dollars on its more than 16,000 miles of pipeline facilities used to deliver gas to its customers. The infrastructure system replacement surcharge (ISRS) covers only a part of the expenses that the Company must incur to maintain and upgrade its system and to relocate facilities in connection with local, state and federal public improvement projects and safety requirements. In general, the ISRS charge to cover these costs is smaller for residential customers, while larger users in other customer classes are charged a greater amount. The amount of the charge may be adjusted periodically, and is being implemented in accordance with Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri.

Important Messages

As a result of a periodic review, your budget amount will change next month to \$103.00.

Vacation season is here. Are you going out of town for an extended period of time? If so, consider asking a neighbor, friend or family member to check on your residence while you are away. Occasionally, we are required to temporarily interrupt your natural gas service in order to make unanticipated repairs to our system. Before restoring your service, we are required to enter your residence to check appliances. Help us serve you better, have someone check on your home while you are away.

Please retain this portion for your records.

See back of bill for other convenient ways to pay your bill.

Please detach and return this portion to **Laclede Gas Company, Drawer 2, St. Louis, MO 63171** with your payment. Please do not fold, staple or paper clip payment to your bill.
