Mr. Robert Kenny

Missouri Public Service Commission

Box 360

Jefferson City, MO 65102

Dear Mr. Kenny:

I am extremely worried about the application filed from Grain Belt Express Clean Line. I was hopeful that your Commission would have seen fit to deny such an application since the negatives far outweigh the positives of this project and it is of little/no benefit to those who are affected.

This line would "sever" our bottom farmland in Ralls County rendering it much less valuable and very difficult for today's machinery to navigate - not to mention the health hazard to farmers and livestock.

This company has no record of building such a line which could put completion in jeopardy and then individual owners would have to deal with removal of concrete and steel .

This project has little benefit for Missourians. It is designed to serve the East Coast which has better wind from the ocean than they will get from Kansas.

Clean Line Energy will produce little energy for Missourians and will tarnish our beautiful countryside, plus cause hardship on some of its citizens. This a bad idea. I urge you to deny Clean Line Energy's application.

Thank you very much,

Anne P. Hizar
