

Statement Of Position Gerald Reiersen
Case No. SC-2005-0083

1. **Yes, the Blue Lagoon sewer system should be regulated by the PSC because they are charging for sewer services.**
2. **Yes, the respondents have failed to provide a safe and adequate service to their customers by having inadequate sized sewer pipes causing sewer backups and not monitoring the lagoon level or providing a emergency spill over, causing an overflow into customer yards and flowing down the street into the creek.**
3. **Yes, the Commission should order Blue Lagoon Sewer system to improve their system to protect their customers and the environment.**
4. **Yes, the respondents have been collecting or accepting fees for the services and those fees have not been authorized by the Commission.**
5. **Yes but, Cannon Water has stated they will not accept the Blue Lagoon Sewer system until it is in full compliance and they have all the pertinent information pertaining to the system.**
6. **Yes I believe penalties should be imposed on the respondents for their lack of responsibility over the last three years in providing a legal and safe system for their customers.**
7. **Yes**
