Notary Public

My commission expires 9-21-10

DIRECT TESTIMONY

OF

ANNE ROSS

UNION ELECTRIC COMPANY d/b/a AMERENUE

CASE NO. GR-2007-0003

Q. Please state your name and business address.

A. Anne E. Ross, P.O. Box 360, Jefferson City, Missouri 65102.

Q. By whom are you employed and in what capacity?

A. I am a Regulatory Economist with the Missouri Public Service Commission (Commission).

Q. Please describe your educational background.

A. I graduated from the University of Missouri-Columbia in 1986 with an undergraduate degree in Business Administration. I graduated with a Masters of Business Administration in 1989.

Q. Please describe your work experience.

A. I have been employed with the Commission as a Regulatory Economist since 1989. I have also been an adjunct professor at Columbia College since 1989.

Q. What has been the nature of your duties while in the employ of the Commission?

A. The general nature of my duties at the Commission include Class Cost of Service, Rate Design and Large Customer Analysis for natural gas companies. Schedule 1 is a list of the cases in which I have filed testimony.

Q. What is the purpose of your direct testimony?

Direct Testimony of
Anne Ross

1 A. The purpose of my direct testimony is to describe the revenue adjustments that
2 the Staff is proposing to the Company's Transportation tariff revenues.

3 Q. Did you analyze AmerenUE's (Company) large customer records for this case?

4 A. Yes, I did. Using information provided by the Company, I analyzed the
5 Transportation customers' usage on an individual customer basis.

6 Q. Are you sponsoring Staff adjustments S-2.5 and S-3.2?

7 A. Yes. If a Transportation customer took service under more than one tariff
8 during the test year, I adjusted the Company's revenues so that they would be equal to the
9 revenues that would have been recorded if the customer had taken service under only one
10 tariff. To do this, I made an adjustment to the original class' revenues to remove the
11 customer's revenues, and an off-setting adjustment to revenues of the class in which the
12 customer ended the test year. This is called a rate-switching adjustment.

13 In this case, eight customers switched from the General Service tariff class to the
14 Transportation tariff class during the test year. Adjustment S-2.5 reflects the General Service
15 tariff class revenue effect resulting from removal of these customers' test year revenues. In
16 Adjustment S-3.2, I adjusted the Transportation class' booked revenues to reflect the revenues
17 that would have been collected if these customers had taken service in the Transportation
18 class during the entire test year.

19 Q. Did you make any adjustments to reflect customers coming on or going off the
20 AmerenUE system during the test year?

21 A. Yes. Adjustment S-3.3 represents the revenue adjustment made to reflect the
22 loss of one Transportation customer, and the gain of one Transportation customer.

23 Q. Does this conclude your direct testimony?

24 A. Yes
