On June 25, 2021, Confluence Rivers Utility Operating Company, Inc. The application also request a variance of the 60-day notice requirement contained in Commission Rule 20 CSR 4240-4.017(1), and a waiver of any requirement that Confluence Rivers provide plans and specifications related to the construction of the distribution and collection systems.

The Commission will direct that notice be given, set a deadline for intervention requests, and order its Staff to file a pleading.
