Hi, Andrew. I am in receipt of your BFR request; however, it is being returned and won't be processed because you have indicated in your description that Big River wants to do commingling, but you have indicated in the 'technical description' section of the request that you are wanting to order a loop and a port--which Big River can do. That type of arrangement is not considered commingling. Commingling would be more like a loop with an access element with it. Whenever you wish to combine a UNE element with an access product--that's considered commingling.

If you would like to talk about this further, please let me know. There's a chance that we may be speaking two different languages. Thanks!

Drawings and/or schematics that can help explain your request are very beneficial to answering your request in a timely manner.

General Comments/ Drawings :

Big River Telephone would like to commingle UNE Loops (offered pursuant to Section 251) with an analog local switch port (contained in our Interconnection Agreement, Att 6, para. 1.2.5) and offered pursuant to Section 271.

SBC Missouri was to have listed Commingled Arrangements available for ordering in the CLEC Handbook, but none have been posted for 251/271 combinations.

Specifically, we are looking for a combination of :

1)   2 wire analog loop

         Analog line port

2)   2 wire analog loop

   Analog DID trunk port

Authorized Signature:
Title:

For New UNE Requests

PLEASE BE AS SPECIFIC AS POSSIBLE - the more complete the request, the faster the request can be processed. Drawings or schematics, if they can provide clarity to your request are very helpful.

Provide a technical description of the requested element:

Specifically, we are looking for a combination of :

1)   2 wire analog loop
      Analog line port

2)   2 wire analog loop
      Analog DID trunk port

      In all SBC MO central offices
