Empire District Electric Company d/b/a)	
Liberty to Obtain a Certificate of)	Case No. EA-2023-0131
Convenience and Necessity to Enhance)	
System Resiliency	j	

STATUS REPORT

COMES NOW The Empire District Electric Company d/b/a Liberty, and for its third status report, respectfully states as follows to the Missouri Public Service Commission ("Commission"):

- 1. On February 14, 2023, Liberty filed its Application for a Certificate of Convenience and Necessity to Enhance System Resiliency, as the Riverton project to enhance the resiliency of the Company's electric system may require a CCN pursuant to the definitions of "construction" and "asset" in Commission Rule 20 CSR 4240-20.045(1) and 20.045(2)(A).
- 2. To allow time for Liberty to address issues with the Southwest Power Pool ("SPP") regarding generation interconnection and to allow time for Liberty to provide additional information to the Staff of the Commission and other parties to this proceeding regarding the details of the Riverton Units 10 and 11 project, Liberty requested a stay of these proceedings. The requested stay was granted by the Commission, with Liberty directed to file monthly status reports.
- 3. There have been additional developments. At this time, units 10 and 11 are on outage, with an assessment of unit 11 taking place and repairs being made on unit 10. Liberty will utilize the generation interconnection replacement process with SPP and would like to begin the physical replacement of the generating units in the spring of 2025. The existing Riverton units

10 and 11 generators would then be retired following commercial operation of the replacement units.

4. Liberty intends to file an amended CCN application regarding the Riverton project in the coming months.

WHEREFORE, Liberty submits its third monthly status report. No action on the part of the Commission is requested at this time.

Respectfully submitted,

/s/ Diana C. Carter
