For Approval of a Rate Increase )

**MOTION FOR EXTENSION OF TIME**

**COMES NOW** the Staff of the Missouri Public Service Commission (Staff), by and through counsel, and pursuant to 4 CSR 240.050(12), hereby states:

1. On December 4, 2012, the Missouri Public Service Commission (Commission) received a letter from Lincoln County Sewer and Water, LLC (the Company), requesting Commission approval of an increase of \$13,382.00 in its annual sewer system operating revenues and an increase of \$7,569.00 in its annual water system operating revenues, pursuant to Commission Rule 4 CSR 240-3.050, Small Utility Rate Case Procedure. The Company's requests for its sewer and water operations were assigned Commission Case Nos. SR-2013-0321 and WR-2013-0322, respectively.

2. Commission Rule 4 CSR 240-3.050(9) states that "[n]o later than ninety (90) days after a case is opened, the staff shall provide a preliminary report of its investigation and audit to the utility and the public counsel." In these cases, the deadline for that report is March 4, 2013.

3. Commission Rule 4 CSR 240-3.050(12) provides that "staff and the small utility may agree that the deadlines set out in sections (9), (10), and (11) be extended for up to two (2) months. If an extension is agreed upon, the staff shall file a written

agreement regarding the extension and an updated timeline reflecting the extension in the case file.”

4. Pursuant to Rule 4 CSR 240-3.050(9), Staff requests the Commission grant a 60-day extension of the deadlines set out in sections (9), (10), and (11). Staff and the Company have discussed and agreed upon this extension request.

5. Updated timelines reflecting the requested 60-day extension are attached hereto as Appendix A, for Case No. SR-2013-0321, and Appendix B, for Case No. WR-2013-0322.

**WHEREFORE**, Staff requests an extension as described above and such further relief as the Commission deems just and reasonable.

<b>Date Case Opened</b>	<b>December 4, 2012</b>
<b>Agreement Filing Due Date</b>	<b>July 2, 2013</b>
<b>9-Month Deadline</b>	<b>September 4, 2013</b>
<b>11-Month Deadline</b>	<b>November 4, 2013</b>

Set out on the following pages is the activities timeline pertaining to the processing of the above-referenced small utility revenue increase request. This timeline assumes that the Staff's investigation of the revenue increase request will result in a conclusion that an increase in the subject utility's operating revenues is needed, that at least the Utility and Staff will reach an agreement regarding the overall resolution of the request without the need for time extensions, and that the request will be resolved without an arbitration process being used or an evidentiary hearing being held. For cases where an arbitration process is going to be used or an evidentiary hearing is going to be held, it is anticipated that a procedural schedule will be set when that becomes known. In such instances, the 9-month and 11-month deadlines will need to be considered in setting the procedural schedule.

The schedule set out in the timeline establishes the Target Due Date for the completion of certain activities needed to process the request in a timely manner. Extensions of the disposition agreement filing deadline, which is 150 days after the date the utility files its request, and certain other deadlines are allowed (and under some circumstances are required) and if executed will result in changes to the timeline. Agreements for such extensions, which are limited to a maximum of 60 days, will be reduced to writing and filed in the case file, along with an updated timeline.

The entries in the Target Day column represent the number of days from the date the utility filed its request. The entries in the Target Due Date column show the date when the Target Day hits the calendar. To determine the entries for the Calendar Due Date column, Target Due Dates falling on a weekend or a holiday are moved to the next regular working day, except that the effective dates for pending revised tariff sheets cannot be adjusted.

Activities needed from this point forward vary based on the approach taken by the OPC. The next three sections set out the activities needed based on the different OPC approaches that are possible.

This section pertains to the situation where the Utility, Staff & OPC reach an agreement on the overall disposition of the request, and is thus based on the fact that the Utility will not send out a second customer notice. In this situation, a minimum of 30 days is needed between the filing date and the proposed effective date of the Utility's tariff revisions. The dates shown assume that the Utility will make a 30-day tariff filing on Day 155.

This section pertains to the situation where only the Utility and Staff reach an agreement on the overall disposition of the request, and is thus based on the fact that the Utility will send out a second customer notice. This section is also based on the assumption that the OPC will not request a local public hearing. In this situation, a minimum of 45 days is needed between the filing date and the proposed effective date of the Utility's tariff revisions. The dates shown assume that the Utility will make a 45-day tariff filing on Day 155.

This section pertains to the situation where only the Utility and Staff reach an agreement on the overall disposition of the request, and is thus based on the fact that the Utility will send out a second customer notice. This section is also based on the assumption that the OPC will request a local public hearing and that one will be held. In this situation, a minimum of 45 days is needed between the filing date and the proposed effective date of the Utility's tariff revisions. The dates shown assume that the Utility will make a 45-day tariff filing on Day 155. The dates also assume that the tariff revisions will be suspended for 45 days past the proposed effective date, and that the local public hearing will be held 30 days before the end of the suspension period.

This section pertains to the situation where only the Utility and Staff reach an agreement on the overall disposition of the request, and is thus based on the fact that the Utility will send out a second customer notice. This section is also based on the assumption that the OPC will request a local public hearing and that one will be held. In this situation, a minimum of 45 days is needed between the filing date and the proposed effective date of the Utility's tariff revisions. The dates shown assume that the Utility will make a 45-day tariff filing on Day 155. The dates also assume that the tariff revisions will be suspended for 45 days past the proposed effective date, and that the local public hearing will be held 30 days before the end of the suspension period.
