1. The Water District Intervenors are each a political subdivision of the State of Missouri organized and existing pursuant to Chapter 247, RSMo, and their legal names and contact information follow:

3. The Water District Intervenors are customers of Missouri-American Water Company ("Missouri-American" or "water company") and purchase water from said water company for distribution and resale to their own customers.

4. As resale customers of Missouri-American, the interests of the Water District Intervenors are different from that of the general public. Accordingly, the Water District Intervenors have an interest in this proceeding which is different from that of the general public and which may be adversely affected by a final order arising from this case. Furthermore, the Water District Intervenors' expertise in this area will assist the Commission in resolving this matter and their intervention will serve the public interest.

5. No other party to this proceeding can adequately represent the Water District Intervenors' interests. The Commission has previously recognized the Water District Intervenors' interests in proceedings affecting the rates for water service in permitting their intervention in prior Missouri-American rate-related proceedings, most recently in File No. WR-2015-0301.

6. The Water District Intervenors are still reviewing information submitted by Missouri-American regarding the various issues in this case, and have not determined their positions at this time.

WHEREFORE, Applicants Public Water Supply District No. 1 of Andrew County and Public Water Supply District No. 2 of Andrew County request that this Commission enter its Order granting their Application to Intervene.

Respectfully submitted,
