RE: Case No. GR-2006-0288

Dear Secretary:

Enclosed herewith for filing with the Missouri Public Service Commission is a revised tariff sheet, P.S.C. MO. No. 5 Consolidated, Two Hundred and Ninth Revised Sheet No. 29, which is applicable to both divisions of Laclede Gas Company ("Company"), excluding the service territory formerly served by Fidelity Natural Gas, Inc.. This revised tariff sheet, which has an issue date of October 31, 2006, and an effective date of November 16, 2006, reflects the scheduled November Purchased Gas Adjustment ("PGA") of the Company as provided by Sheet Nos. 15 through 28-h of the Company's tariff. Such revised PGA rates, which will be made effective on a pro-rata basis, include changes for both the Current Purchased Gas Adjustment ("CPGA") and the Actual Cost Adjustment ("ACA") factors for natural gas and subdivision propane customers.

As a result of this filing, the Company's underlying charge for gas for firm sales customers will decrease from approximately \$1.03 per therm to \$.93 per therm primarily due to the decrease in wholesale natural gas prices that has occurred since the Company established the PGA factors that became effective in January 2006.

The natural gas PGA rates provided herein will decrease the natural gas bill of the typical residential heating customer by approximately 8% compared to existing rates. Compared to the same time last year, the rate paid by a typical residential customer is down by approximately 14%.

Sincerely,

Kenneth J. Neises
Executive Vice President
Energy & Administrative Services
