Re: Safety Valve Request

The Saint Luke's Hospital in Kansas City, Mo is in need of expanding its voice network.

SLHS has requested AT&T for additional 3000 DID numbers. AT&T has replied that there are no 3000 consecutive DID numbers available at this time.

This facility is also part of a larger voice network that utilizes approximately 18,000 DID numbers from different Central Office locations across the greater Kansas City metro area therefore, specific DNs are being requested in order to fit into this large dialing plan.

Please treat this letter as a Safety Valve Request for 3000 consecutive DID numbers in following ranges:

816-317-0000 through 816-317-5999

The additional DID numbers are needed urgently as phone number shortage affects patient care.

Please advise when these number ranges are available.
