Re: Primus Telecommunications, Inc. Missouri P.S.C. Tariff No. 1

Dear Mr. Roberts:

Enclosed for filing, on behalf of Primus Telecommunications, Inc. ("Primus") and pursuant to the May 21, 1999 Order approving the *pro forma* internal reorganization of Primus and TresCom U.S.A., Inc. ("TresCom") and pursuant to the September 17, 1999 Order Directing Filing of the revised tariff in Case No. TM-99-381, are an original and two (2) copies of revisions to Missouri P.S.C. Tariff No. 1. These revisions are filed bearing an issue date of September 27, 1999 and an effective date of October 27, 1999.

This filing adds the TresCom services and rates to the Primus tariff. The following tariff sheets are included with this transmittal

First Revised Sheet 3  
Original Sheet Nos. 49 through 70

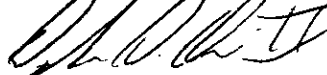

Please note that Primus and TresCom have not yet consummated the merger approved in the May 21, 1999 Order. However, in compliance with the above-mentioned Orders and in anticipation of imminent consummation of the transaction, Primus is filing the attached tariff revisions. Primus will notify the Commission of consummation of the merger.

SECTION 6 - TRESKOM SERVICE AND RATE DESCRIPTION

Sections 6 through 9 apply to services formerly offered by TresCom U.S.A., Inc. trade name and are available to Primus subscribers who were subscribers of TresCom U.S.A., Inc. on the date of October 1, 1999. The following services are provided by Primus Telecommunications, Inc.

6.1 General

Service is offered to residential or business customers and is available from equal access originating end offices only.

6.2 Timing of Calls

6.2.1 Long distance usage charges are based on usage of TresCom's network. The Company will determine that a call has been established through industry standard answer detection methods, including hardware answer detection.

6.2.2 Chargeable time for a call ends upon disconnection by either party.

6.2.3 The minimum call duration, initial period and each additional timing period for billing purposes is stated on a per-product basis in this tariff.

6.2.4 No charges apply for incomplete calls.

SECTION 6 - TRESKOM SERVICE AND RATE DESCRIPTION (CONT'D.)

## 6.3 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between the serving wire center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the serving wire centers as defined by BellCore (Bell Communications Research), in the following manner:

- Step 1: Obtain the "V" and "H" coordinates for the serving wire center of the Customer's switch and the destination point.
- Step 2: Obtain the difference between the "V" coordinates of each of the serving wire centers. Obtain the difference between the "H" coordinates.
- Step 3: Square the differences obtained in Step 2.
- Step 4: Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5: Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6: Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating serving wire centers of the call.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

6.5.6 TeraFon Long Distance Prepaid Calling Card Service - I

TeraFon Long Distance PrePaid Calling Card Service - I is available to residential and business Customer for placing calls while away from home or office. Calls are originated by dialing the 800 access number printed on the card, followed by a personal identification number and destination number. Debit card accounts maintain a balance which is depleted on a real-time basis as calls are placed.

Customers are notified of their remaining account balance at the beginning of each call. Calls may originate from standard residential, business or pay telephone access lines and may terminate to any interstate or intrastate location. Calls are billed in one (1) minute increments. The minimum call duration for billing purposes is one (1) minute. TeraFon Long Distance PrePaid Calling Card Service - I is available 24 hours a day, seven days per week. The number of available cards is subject to technical limitations. Cards will be offered to customers on a first come, first served basis.

Each time the card is used, the end user will hear a message describing the number of minutes remaining. At sixty (60) seconds prior to the final balance running out, the user will hear a warning announcement. With thirty (30) seconds remaining, a reminder tone will be sound and the call will be disconnected automatically with zero (0) seconds remaining.

The following call types cannot be completed utilizing the TeraFon Long Distance PrePaid Calling Card Service - I: 500, 700, 800, and 900 numbers, calls requiring the quotation of time and charges, and air to ground and high seas service

6.5.8 TeraFon Service

TeraFon is a fully-integrated business service designed to meet the communication needs of businesses with outbound and/or inbound service requirements. TeraFon provides both switched and dedicated access capabilities. All services, switched and dedicated, inbound and outbound, are billed in six (6) second increments with a six (6) second minimum billing period.

TeraFon encompasses several pricing options with varying Minimum Monthly Revenue Commitments (MMRC) that reflect common spending patterns of the business customer. International, interstate, intrastate and calling card calls contribute to the calculation of gross monthly usage associated with the corresponding MMRC. Directory assistance and operator service charges do not apply to the calculation of gross monthly usage.

The MMRC is applied to a single access type (switched or dedicated). The MMRC may be applicable to a single service type (outbound, inbound or travel) or to a combination of the three service types (outbound, inbound and travel). An account with inbound, outbound and travel service, utilizing the same access type, will only have one MMRC.

Each TeraFon account will benefit from a 90-day ramp-up period in which to accrue sufficient usage to meet the corresponding MMRCs. Once the ramp-up period has expired, customers billing less than the product MMRC will automatically be assessed a fee equivalent to the difference between actual gross usage and the pre-determined MMRC amount.

SECTION 7 - TRESKOM MISCELLANEOUS SERVICES

7.1 Directory Assistance

Directory Assistance is available to the Customer subscribing to the Company's intrastate interexchange switched communications services. The Directory Assistance charge applies to each call regardless of whether the Directory Assistance bureau is able to furnish the requested telephone number. Directory Assistance calls shall not count toward the volume commitments. If the Customer receives an incorrect telephone number, a credit allowance for Directory Assistance shall be provided.

Directory Assistance, per request \$0.75

7.2 Late Payment Charge - Business Accounts

A late fee, applicable to business accounts only, of 1.5% per month will be charged on any past due balance.

7.3 Return Check Charge

A return check charge of \$25.00 will be assessed for checks returned for insufficient funds. Any applicable return check charges will be assessed according to the terms and conditions of the billing entity (i.e. local exchange company and/or commercial credit card company) and pursuant to Missouri law and PSCM regulations.

SECTION 8 - TRESKOM PROMOTIONS

8.1 Promotions - General

From time to time the Company shall, at its option, promote subscription or stimulate network usage by offering to waive some of all of the nonrecurring or recurring charges for the Customer (if eligible) of target services for a limited duration, not to exceed 90 days, or by offering premiums or refunds of equivalent value. Such promotions shall be made available to all similarly situated Customers in the target market area. These promotions must be approved by the PSCM before they are offered to the public.

8.2 Demonstration of Calls

From time to time the Company shall demonstrate service by providing free test calls of up to four minutes duration over its network.
