Dear Secretary:

Enclosed herewith for filing with the Missouri Public Service Commission is a revised tariff sheet, P.S.C. MO. No. 5 Consolidated, Two Hundred and Sixteenth Revised Sheet No. 29, which is applicable to both divisions of Laclede Gas Company ("Company"). This revised tariff sheet, which has an issue date of October 29, 2010, and an effective date of November 16, 2010, reflects the scheduled November Purchased Gas Adjustment ("PGA") of the Company as provided by Sheet Nos. 15 through 28-i of the Company's tariff. Such revised PGA rates, which will be made effective on a pro-rata basis, include changes to both the Current Purchased Gas Adjustment ("CPGA") and the Actual Cost Adjustment ("ACA") factors for natural gas and subdivision propane customers.

As a result of this filing, the Company's underlying charge for natural gas for firm sales customers will decrease from \$.65238 to \$.64093 per therm primarily due to an expected reduction in the cost of gas used to serve its customers this coming winter, net of the impact of the Company's revised ACA factor. Also, please note that the Company is contemporaneously providing to the Staff under separate cover a highly confidential Executive Summary that is intended to explain the major elements responsible for the change in the Company's PGA rates.

The natural gas PGA rates provided herein will decrease the natural gas bill of the typical residential heating customer by 1.2% compared to existing rates. If the proposed PGA rates remain in effect for the entire winter, the natural gas bill of the typical residential heating customer will be only \$ 2 more than last winter. More importantly, the Company's rates would still be lower than they were six years ago and will be down 28% from the peak level that rates reached during the winter of 2005-2006.

Sincerely,

Mark C. Darrell
