RULES AND REGULATIONS GOVERNING RENDERING OF SEWER SERVICE

H. PAYMENT

- 1. The charges for sewer service shall be at the rate specified in this tariff, which is on file with the Missouri Public Service Commission and at the company's office. The point of assumption of sewer service shall be at the service connection. Service charges for connection or disconnection are set forth in the Schedule of Service Charges.
- A customer who is or has been taking sewer service at one or more units connected to the collecting sewer shall be held liable for payment of any applicable charges for service furnished to such units from the date of connection until the date requested by the customer in writing for service to be terminated, or until service is discontinued by the company. If termination of service must be accomplished by physical disconnection, the customer shall notify the company of the date and time of the disconnect in writing at least five days prior to the disconnection. If termination is accomplished by discontinuance or termination of water service, such notice shall be on or before the date of the water turnoff. Service may not be terminated for one unit of a multi-unit building if the building is served by one service sewer, unless accomplished by discontinuance or termination of water service. The method used for termination of service shall be determined by the company.
- 3. Bills for sewer service will be mailed or delivered to the customer's last address as shown by the records of the company, but failure to receive the bill will not relieve the customer from the obligation to pay the same.
- 4. Payments shall be made at the office of the company or at a convenient location designated by the company, or by mailing to the company's office.
- 5. Separate bills shall be rendered for each location at which sewer service is provided, even though one entity may be the customer at such separate locations.
- 6. The company shall have the right to render bills monthly in advance. Bills shall have the due date indicated on the bill. The company shall have the right to charge customers on a monthly basis in arrears when the sewer charges are based on water usage.
