

Rebates for Energy-Efficient Products

By purchasing energy-efficient products for your home, you can save energy, save money and help protect the environment. The rebates described below are good for purchases made April 25, 2016 through February 28, 2019. All rebate requests must be postmarked no later than March 15, 2019 to receive the rebate. Some restrictions may apply.

Step 1 - Choose your energy-efficient product.

Purchase and install a new eligible smart thermostat and receive a \$50 rebate.

Get
\$50

- Smart thermostats can help you save up to 15% on your home's cooling costs. Enjoy a \$50 rebate when you purchase an eligible smart thermostat.

Commented [JP1]: See below.

Purchase and install a new ENERGY STAR® certified heat pump water heater and receive a \$500 rebate.

Get
\$500

- Heat pump water heaters are two to three times more efficient than standard electric models. ENERGY STAR certified heat pump water heaters can save you almost \$300 a year on energy bills – and if you have a large family you will save even more.
