## Rebates for Energy-Efficient Products

By purchasing energy-efficient products for your home, you can save energy, save money and help protect the environment. The rebates described below are good for purchases made April 25, 2016 through February 28, 2018. All rebate requests must be postmarked no later than March 15, 2018 to receive the rebate. Some restrictions may apply.

### Step 1 - Choose your energy-efficient product.

Change to \$50

#### Purchase and install a new eligible smart thermostat and receive a \$100 rebate.

Get \$100

- Smart thermostats can help you save up to 15% on your home's cooling costs. Enjoy a \$100 rebate when you purchase an eligible smart thermostat.
