NOTICE OF COMMUNICATION

Issue Date: June 12, 2015

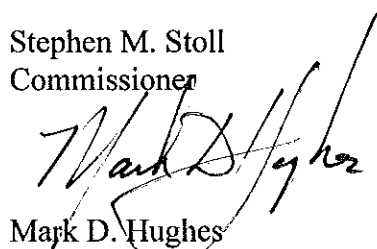

We received the attached letter, via e-mail, regarding the above referenced case.

This filing is made in compliance with this commissioner's interpretation of the "standards of conduct" in 4 CSR 240-4.010 and 4.020 relating to ex parte and extra record communications and does not otherwise imply or reflect the position of the Missouri Public Service Commission or any other commissioner.

Respectfully Submitted,

Stephen M. Stoll
Commissioner

Mark D. Hughes
Adviser to Commissioner Steve Stoll

Dated at Jefferson City, Missouri,
On this 12th day of June, 2015.

Eiken, Shelley

Subject: Grain Belt Express

Mr. Stoll

My name is Donna Inglis and my husband Bruce and I reside in Randolph County. After hearing of your opinion concerning the GBE project we felt compelled to write.

Obviously we are aware of the opposition to this project but were disappointed in the stand you took.

We fail to see what is stopping the approval. It would benefit our state in several ways. The property tax revenue is important to the rural counties. There will many good paying jobs created. The electricity dropped off in Ralls county will provide clean energy for 200,000 homes. We are sure you remember the mandate that Mo voters approved. It was that there would be fifteen percent clean renewable energy by the year 2020 and the GBE project would put us one step closer to that goal.

Many of the reasons why people are against this project border on the ludicrous. There are to many examples of fear mongering. Let us give you a few: 1. crops won't grow under them. 2. Stock will quit giving milk. 3. All children living near by will get leukemia. 4. Women will become infertile. These are just a few of the ones we have heard. The tragedy is that there are a certain number of people that believe this and that is very sad.

Another thing we want to remind you of, the pipelines. There are three of them that traverse our farm and guess what they in no way meet the criteria for imminent domain

The only benefit to the state is the property tax they pay and we in no way want to demean its importance but that is about the only one, with the exception of a very few jobs. The crude oil lines and the natural gas line don't stop in MO.

It is our wish that you will look again at a project that will benefit the state not just during the construction phase, like the pipelines, but one that will bring jobs and clean renewable energy to our state.

Thank you for your time and consideration.

Bruce and Donna Inglis
